CLAFIN UNIVERSITY

Career Pathways Initiative (CPI) at Clafin University

The newly designed Career Pathways Initiative presents an exciting opportunity to build upon Clafin University's tradition of delivering high quality educational experiences. The Career Pathways Program will impact student preparation for the workforce or graduate/professional schools by helping them develop 21st century workforce competencies through a 3-pronged approach established by UNCF. The three prongs in this approach are

- 1. Guided Pathways** – intentional milestones of goals, coursework, and activities during the academic year that lead individual students to specific careers and/or graduate/professional school.
- 2. Curricula Enhancements** – coursework that provides students with the knowledge, skills, and competencies to meet workforce needs and demands.
- 3. Integrated Co-Curricular Engagements** – students participate in opportunities to gain real-life experience related to career goals.
