CLAFLIN COLLEGE
(Continued from other side)
The S.C. Agricultural and Mechanical Institute opened at Claflin in 1872 and was the predecessor of S.C. State University, founded in 1896. Claflin, associated with and supported by the Methodist Church, featured in its early years industrial, manual, and agricultural training; primary and secondary education; and college-prep and college courses, including architecture, law, teacher education, and theology. It was renamed Claflin College in 1979.

VISION STATEMENT

Claffin University will be recognized as a leading 21st Century institution of higher education that develops a diverse and inclusive community of globally engaged visionary leaders.

MISSION STATEMENT

Claffin University is a comprehensive institution of higher education affiliated with the United Methodist Church. A historically black University founded in 1869, Claffin is committed to providing students with access to exemplary educational opportunities in its undergraduate, graduate, and continuing education programs. Claffin is dedicated to providing a student-centered, liberal arts education grounded in cutting-edge research, experiential learning, state-of-the-art technology, community service, and life-long personal and professional fulfillment.

Claffin is a diverse and inclusive community of students, faculty, staff and administrators who work to cultivate practical wisdom, judgment, knowledge, skills and character needed for globally engaged citizenship and effective leadership.

GUIDING PRINCIPLES

At the center of everything we do is a system of values informing and guiding all policies and programs. These values, expressed through our decisions and actions, are defined by five over-arching guiding principles:

- **Commitment to Excellence:** We will strive for excellence through creativity, innovation and efficiency that allow for optimization of resources.
- **Commitment to Valuing People:** We will value people by providing a safe, wholesome and healthy environment that fosters mutual respect, diversity, and inclusion.
- **Commitment to Being Student Centered:** We will focus on all aspects of student life including student-centered education by embedding skills and praxis that foster life-long learning and independent problem solving and also translate their needs and expectations into actions that embody exceptional service.
- **Commitment to Exemplary Educational Programs:** We will provide exemplary educational programs and an effective learning community by ensuring that they represent the highest standards of academic excellence and by continuous quality improvement.
- **Commitment to Fiscal Accountability:** We will commit to financial accountability by promoting and fostering a culture of compliance, integrity, and fiscal responsibility throughout the University.

Quick Facts

- Claflin University is the oldest historically black college or university in South Carolina.
 - The origin of Claflin University may be traced to the founding of the Baker Biblical Institute in Charleston, South Carolina, in 1866.
 - Boston philanthropist Lee Claflin and his son, Massachusetts Governor William Claflin, provided initial financing for purchasing the Orangeburg Female Institute, where the University is now located.
 - Dr. Alonzo Webster and the Rev. T. Willard Lewis played prominent roles in securing the site of the institution.
 - Claflin University was chartered on December 18, 1869.
 - The Baker Biblical Institute was moved to Orangeburg in 1870 and merged with Claflin University.
 - The first class in the Normal Department of Claflin University graduated in 1879. The College Department granted its first diplomas in 1882 to William Lewis Bulkley and Nathaniel Middleton.
 - South Carolina State University emerged from Claflin University.
-

Presidents of Claflin University

Dr. Alonzo Webster (1869-1874)

Dr. Edward Cooke (1874-1884)

Dr. Lewis M. Dunton (1884-1922)

Dr. Joseph B. Randolph (1922-1945) – First African-American president

Dr. John J. Seabrook (1945-1955) – First alumni president

Dr. Hubert V. Manning (1956-1984)

Dr. Oscar A. Rogers (1984-1994)

Dr. Henry N. Tisdale (1994-2019)

Dr. Dwaun J. Warmack (2019-present)

The Claflin University motto, as decided by the Reverends Alonzo Webster and T. Willard Lewis, is:

*“As you would like that men should do to you,
do you also to them likewise.”*

University mascot: The Panther

University colors: Orange and Maroon

CLAFLIN UNIVERSITY

The World Needs Visionaries

The World Needs Visionaries

The Claflin Story

Claflin University, founded in 1869, was named in honor of Lee Claflin, a prominent Methodist layman of Boston, and his son William Claflin, the governor of Massachusetts. Ardent abolitionists, these men harbored a great concern for higher education and the uplift of African-Americans.

Just one year earlier in July 1868, the Rev. Timothy Willard Lewis, the first missionary sent by the Methodist Church to the emancipated people of South Carolina, and Dr. Alonzo Webster, a prominent Methodist minister and teacher at the Baker Theological Institute in Charleston, South Carolina, had acquired the property of the old Orangeburg Female Institute for \$5,000. With the substantial financial support of Lee and William Claflin, Lewis and Webster secured the foundation of what would become Claflin University.

In the following months, a Board of Trustees was named, a charter was secured in December 1869, and Claflin University was opened with the promise to “make Claflin University, by the blessing of God and the aid of our friends, worthy of the patronage of all classes and an honor to the state.”

Claflin’s founders made a commitment, which they stated in the charter, “to the effectual promotion of virtue, piety and learning.” With “the only admission requirements for prospective students being the possession of good moral character and a conscientious desire to learn,” Claflin University offered, for the first time in South Carolina, quality higher education for men and women “regardless of race, complexion, or religious opinion.”

Launching of a University

Dr. Alonzo Webster, D.D., was appointed Claflin University’s first president at the inaugural meeting of the Board of Trustees on January 31, 1870. In that year, Claflin was successful in the incorporation of the Baker Theological Institute into the University. In his devout commitment to and belief in the Methodist mission, Dr. Webster welcomed the opportunity to lead the University. He possessed the enthusiasm and vision that were imperative to securing the successful future of the institution. An outstanding leader, Dr. Webster not only served as Claflin’s president, but also as a member of the Board of Trustees, professor of systematic theology and moral and mental philosophy, and chief fundraiser. In his efforts to raise funds for the institution, Dr. Webster traveled the state extensively, speaking on the virtues of Claflin and the contributions of the institution to the state and to the world. One of Dr. Webster’s most ambitious

Dr. Alonzo Webster D.D.

plans for Claflin involved the Morrill Land Grant Act of 1862. This act legislated the donation of public land to states and other territories to be sold, with the invested interest from the proceeds used to fund agricultural and mechanical colleges. In an effort to strengthen Claflin’s financial base, Dr. Webster was instrumental in establishing an agricultural and mechanical college at Claflin University on March 12, 1872, to assure state funding for the institution.

Agricultural and Mechanical Institute

Under Section 2 of the Morrill Land Grant Act, Claflin University was given “supervision and control” of a consolidated board consisting of Claflin University and the South Carolina Agricultural and Mechanical Institute. Dr. Webster maintained joint presidency of both Claflin University and the agricultural college. Although he remained steadfast in his pursuit of state funding for Claflin University, the government was not responsive to Webster’s requests, and the University was soon left without the support of the state government. Dr. Webster tirelessly solicited support for the University, seeking help from one of Claflin’s earliest benefactors, William Claflin, and eventually assumed responsibility for the debt himself.

Although Dr. Webster’s term lasted only five years – he resigned as president of Claflin University on June 5, 1874 – his greatest contributions to the institution are his efforts

for political and financial support, and the pride and determination he possessed and instilled in the students of the University. Dr. Webster served Claffin as a member of the Board of Trustees until 1886. He died in 1887 at the age of 70.

Following Dr. Webster's resignation, the Board of Trustees appointed the Rev. Edward Cooke, a Phi Beta Kappa graduate of Wesleyan University, Harvard University and McKendree College, as his successor.

Sustaining Claffin University

As Dr. Webster's successor, President Edward Cooke took over the huge responsibility of shaping an institution that was barely four years old. In 1874, Claffin had ownership of its campus as well as 116 acres of adjoining land that Dr. Webster had purchased as an experimental farm for the Agricultural and Mechanical Institute. With more than 300 students, Claffin University saw a steady increase in enrollment from the elementary to the college levels. Despite financial challenges, Claffin was growing as an institution and gaining a reputation for its curriculum under the direction of President Cooke. Following in the tradition of Dr. Webster, Claffin's new leader continued the struggle for the political and financial support that the institution desperately needed.

Edward Cooke

The Fire of 1876

The year 1876 brought tragedy to the campus. On January 15, 1876, a fire destroyed the University's Main Building. The fire of 1876, coupled with the realization that the Agricultural and Mechanical School was operating at a deficit, added to the mounting fiscal challenges of the institution. In 1877, President Cooke found that contributions to the institution from Southern supporters were inadequate to meet the University's growing needs. That same year, President Cooke appointed Rev. Lewis Marion Dunton to resolve the fiscal problems of the University through fundraising. Rev. Dunton proved to be an adept fundraiser, and his efforts played an instrumental role in changing the climate of opinion in the South in regard to Claffin University.

By 1878, a new Main Building was constructed for the campus. Along with rebuilding the campus, President Cooke introduced a significant number of academic innovations. The University experienced enrollment of

students from across the state, an increase in faculty and curriculum, the introduction of extracurricular activities and the installation of a replacement library, which at one point held more than 1,200 volumes.

Bricklaying of Claffin Building

As Claffin moved into the 10th year of its commitment to the educational uplift, the institution continued to receive guidance from its founders and earliest supporters. Under President Cooke's administration, Claffin progressed with respect to the acquisition of equipment and facilities, and in 1879 bestowed its first honorary degrees. One of the recipients was the Rev. Dunton, who was honored with a Master of Arts degree.

President Cooke's tenure proved very productive, as the institution continued to prosper. The Board proposed the addition of a school of law and a school of medicine. The chair of the law school was former South Carolina Supreme Court Justice Jonathan Jasper Wright.

Claffin's First Four-Year Degrees

Another much celebrated occasion came in 1882, when the Board of Trustees approved the recommendation that two students, Nathaniel Middleton and William Bulkley, receive bachelor's degrees. Middleton and Bulkley became the first students to complete the four-year college course offered by the University. After their graduation, Middleton earned an M.D. degree and became a prominent physician in Texas, while Bulkley went on to receive a Ph.D. degree – only the third African-American in the country to do so.

Along with major fiscal accomplishments, several buildings were erected during the 1880s, including Haygood Polytechnic Hall, men's and women's dormitories, the Claffin Retail Store, the Matthew Simpson Industrial Home for Girls, the Slater Building and the Main Building.

In 1884, after 12 years of service to Claflin, President Cooke retired at the age of 70. Accepting his resignation, the Board elected, almost unanimously, Rev. Dunton as the third president of Claflin University.

President Dunton was a popular and widely applauded choice, as his dedication and commitment to Claflin had already been thoroughly demonstrated. Born in New York in 1848, Rev. Dunton was educated at Cazenovia and Talley Seminaries and Syracuse University.

As a member of the South Carolina Conference and pastor of Centenary Church in Charleston, South Carolina, Rev. Dunton took interest in Claflin University and knew many of its supporters and board members. As a special agent for Claflin, President Dunton traveled to the North and proved to be an outstanding fundraiser for the University. In 1879, Rev. Dunton, as secretary of the Board of Trustees, became one of the first recipients of an honorary degree from Claflin. With his wife, Mary Dunton, who immediately assumed duties as preceptress and faculty member in the Art Department, resident Dunton was poised to carry out the mission of the University.

Rev. Lewis Marion Dunton

Claflin Improves and Expands

Consistent with President Dunton's philosophy to "Train the mind to think, the hand to execute and the soul to feel," expansion of Claflin became one of his first priorities, along with an expanded curriculum. As a result of expansion beyond the curriculum, Claflin's musical scholars became known nationally. Tours and recitals by the Claflin Singers, who traveled the country, proved profitable for the institution.

In 1888, with the help of longtime supporter William Claflin, the trustees endorsed the president's plans to expand the physical plant, adding several new buildings to the campus. These buildings, erected on newly available land, made it possible for Claflin to offer additional training in the areas of industry and trade.

The School of Military Tactics

Included among the many additions to the institution were the School of Military Tactics, which was organized for the promotion of good order, strict obedience, physical development, manly carriage and neatness in appearance; a printing press, which produced the institution's first publication, *The Claflin Miscellany*; and the organization of a YMCA.

Despite discernible hostility in the social climate, the number of graduates of Claflin's college and normal courses continued to increase, and students were encouraged to become professionals, especially doctors, lawyers, influential leaders and prominent role models. President Dunton, who understood the needs of students pursuing an education, maintained a delicate balance of sensitivity to the outside world and ambition for his institution amid the sensitive social and political climate of the time.

In 1896, the political activity that had for years threatened the alliance between Claflin University and the State Agricultural and Mechanical Institute (now South Carolina State University) finally gained sufficient support in the South Carolina General Assembly. By an act approved on March 9, 1896, the two institutions were permanently separated. In a show of support for Claflin, the General Conference officially undertook the same separation. President Dunton once again demonstrated his leadership and commitment to Claflin. Facing the challenge of his career, he began to plan a new strategy for the physical, financial and academic reconstruction of Claflin University. As a result of the efforts of President Dunton and the Board of Trustees, Claflin adjusted to the changes of the previous year and moved into a new one that saw the construction of the Lee Library, which housed nearly 5,000 books, and substantial donations.

Main Hall, Claflin College 1899

In 1899, tragedy struck the Claflin campus again when the Main Building was destroyed by fire. President Dunton, the consummate fundraiser, coupled this skill with his staunch reputation and raised \$38,000 to secure new and substantial buildings. In the next 16 years of his presidency, and with the full support of Claflin's trustees and sizable donations from wealthy supporters, the institution expanded with the erection of the T. Willard Lewis Chapel (1907), Tingley Memorial Hall (1908), Mary E. Dunton Hall (1907), the Slater Building (1900), Wilson Dormitory for Girls (1913), the Louise Soules Home for Girls (1904) and a new Manual Training Building (1900). A proud monument to Claflin's growth and progress, the Fisk Building, was tragically destroyed by fire on Jan. 9, 1913.

Thirty-Eight Years of Service

Lewis Marion Dunton's tenure as president lasted 38 years, while his overall service to the institution totaled 47 years. Through his various fundraising activities and commitment to the fiscal and physical expansion of Claflin, President Dunton fulfilled his aims and ambitions. To secure Claflin's financial future, President Dunton launched efforts toward an endowment that he hoped would reach \$500,000. At the end of his administration, the endowment fund stood at more than \$400,000, with the physical plant valued at more than \$225,000.

President Dunton and his wife devoted more than half of their lives to Claflin University. Their generosity and dedication made a profound impact on the University and the surrounding world. Prior to his resignation, the Board of Trustees, with the approval of the president, selected Dr. Joseph Benjamin Randolph as Claflin's fourth president and first African-American president.

Culture and Liberal Arts Take Root

Joseph Benjamin Randolph, a former president of Sam Houston College in Austin, Texas, possessed strong academic qualifications and was well-respected for his accomplishments in African-American educational institutions. An attractive choice for president, Dr. Randolph's work was part of a growing trend that arose in the 1920s to elevate and support black history, cultural pride, and identification at black colleges and universities.

Dr. Joseph B. Randolph

With the vision of turning Claflin into a liberal arts institution with strong cultural and classical affiliations, President Randolph prepared to move Claflin into a new and productive era.

Under his administration, Claflin's reputation soon changed. The institution was no longer known for its large and comprehensive Manual Training Department. With emphasis on high scholastic standards, the faculty and curriculum were substantially upgraded, and the number of courses in the Manual Training Department were reduced. As the standards of the institution conformed to the requirements of the Southern Educational Association, catalogues under Randolph began stating requirements for a student to graduate with a degree.

Dr. Randolph's determination for Claflin to attain higher academic standards resulted in an increase in the institution's enrollment. The student body numbered

600 in 1928, double the number of students in 1923. The confidence with which President Randolph set about implementing his academic, extracurricular and cultural programs demonstrated his optimism for Claflin's advancement.

Dr. Randolph hoped Claflin would gain prominence as a liberal arts institution, and that increased enrollment would serve as a catalyst for financial stability. At the time, Claflin was supported financially by the Methodist Conference, the Board of Education for Negroes (formerly the Freedman's Aid Society), and large and small donations from supporters of the institution. The Board of Trustees offered some financial relief by tapping the endowment, and Dr. Dunton again assumed the task of fundraiser. However, President Randolph knew that there was only so much that they could do to meet the growing challenge.

Printing with presses at Claflin University

Although the Methodist Conference increased its financial support, the University was still threatened with closure as the institution and its leaders faced the worst depression the United States – and the rest of the world – had known. The seriousness of Claflin's financial plight during the 1930s did not dampen the institution's sense of pride, nor did it stall those academic improvements that could be undertaken without regard to resources or facilities. The dedication of the Claflin faculty and staff never faltered. The catalogues continuously announced educational innovation.

Many Innovative Improvements

The many innovative improvements inspired by President Randolph included an update of the aims of the college, the initiation of Freshman Week at the beginning of each academic term and the installation of a vocational guidance program through which visitors were invited onto the campus to talk to students about career opportunities. By the time the United States had committed to World War II, President Randolph had already given Claflin 21 years of service. The war effort gave a boost to the economy, but it reduced Claflin's enrollment by as much as 35 percent. Despite the reduction in enrollment and economic instability, Dr. Randolph managed to keep the institution afloat.

In 1945, as Dr. Randolph prepared to retire, the future of Claflin remained foremost on his mind. Having offered his heartfelt advice on the selection of his successor and the future of the institution, Dr. Randolph requested that, in light of his failing health, the Board accept his resignation.

Although his tenure saw no expansion of the physical plant and minimal improvements in equipment and facilities, Dr. Randolph's great success came in his ability to preserve Claflin and protect it from closure during one of the roughest times in the history of Claflin University and the United States.

Achieving Accreditation and Approval

John Jarvis Seabrook was selected by the Board of Trustees in August of 1945 as the fifth president of Claflin University. The Board was proud to be able to select a graduate of Claflin as its next leader. A well-respected educator and a Methodist minister, Dr. Seabrook was an example of Claflin's success in educating individuals who went on to launch outstanding careers and make significant contributions to society.

Dr. Seabrook went from Claflin – where he attended both high school and college – to Howard University Law School, where, in 1926, he received an LL.B. degree. The following year, he enrolled at Gammon Theological Seminary in Atlanta and simultaneously studied at Clark University. In 1930, he was awarded an A.B. degree from Clark and a B.D. degree from Gammon. Before coming to Claflin, Dr. Seabrook served as director of social services and later as president at Sam Houston College. He also served as professor of philosophy and director of the Christian Center at Morgan State College.

Dr. John Jarvis Seabrook

Upon returning to Claflin, Dr. Seabrook immediately understood the direction in which he wanted to take Claflin. It was his task to put Claflin on track financially and to upgrade the institution's academic standards. President Seabrook sought to win the approval and acceptance of the various educational associations whose accreditations were necessary to achieve funding and academic credibility.

Dr. Seabrook realized the urgency to ensure the success and stability of Claflin's future. Although encouraged by the fundraising efforts and optimism of Dr. Dunton, Dr. Seabrook, a realist, was well aware of the social and economic climate in which he and Claflin's students lived. Assistance to the institution was forthcoming, but in

the postwar era of self-initiatives and modern affluence, Claflin was expected to pull its own weight. For African-Americans who were still denied equal rights, the struggle for financial independence continued to be arduous. At this time, the Civil Rights Movement spearheaded political and social initiatives for African-Americans demanding to share the benefits of an era of prosperity. Dr. Seabrook, much in fashion with the rising Civil Rights Movement, assumed a proud and spirited posture. He envisioned a "bigger and better Claflin" that would include a broader curriculum, and a larger faculty with greater qualifications. Bringing a new enthusiasm to the institution, Dr. Seabrook began realizing his vision for his alma mater.

Dr. Seabrook convinced the South Carolina Conference to increase its annual giving to the University from \$10,000 to \$50,000, making this the largest single conference contribution to a historic institution supported by the Freedman's Aid Society. Only one year after assuming office, President Seabrook began expanding and improving the physical plant.

The Alumni Athletic Field was added to the University. The T. Willard Lewis Chapel was modernized, and the dining hall was converted into a cafeteria to increase its seating capacity. In 1947, the college infirmary, Pearson's Music Studio and the Damage Heating Plant also became impressive additions to the physical plant.

Academic Improvements

While the physical plant was being upgraded, Dr. Seabrook also devoted his efforts to academic improvements. In 1947, President Seabrook announced that the Committee of Approval of Negro Schools of the Southern Association of Colleges and Secondary Schools had awarded Claflin University an "A" rating, and that the University had been approved by the South Carolina Department of Education for teacher training, by the Veterans Administration for veterans benefits and by the University Senate of the Methodist Church.

Fundraising activities continued as Claflin students, alumni and friends rallied for expansion of the University. As part of Dr. Seabrook's plan for academic expansion, the first summer school session was held in 1947. The following year, Claflin was approved for membership in the Association of American Colleges. By 1949, the academic program was finalized with four divisions: Economics, Humanities, Social Studies, and Science and Mathematics.

Disaster Strikes

On February 6, 1955, disaster struck the campus once more when the Mary E. Dunton Dormitory was virtually destroyed. President Seabrook, as saddened as the rest of the Claflin family, reported the disaster to the community and to those concerned for the institution. At the beginning of the 1955 academic year, Dr. Seabrook announced his

acceptance of the presidency of Houston-Tillotson College and resigned his position at Claflin after 10 years of service. The Board of Trustees named an interim committee to oversee the institution while a search for a new president was launched.

The year 1955 was historic for Claflin University. It was the first year in the institution's 86-year history that there was no president. During this time, the institution's financial problems seemed beyond resolution, and the fire in Mary E. Dunton Hall left the campus with only one dormitory. Outside of the campus, the social climate became even more tense than before. Members of Orangeburg's black community began to organize against social injustice. Many students became actively involved in this struggle, which embroiled the campus in social and political conflict.

The Interim Committee

With surmounting adversities facing the institution, five members of the faculty and staff were selected to jointly make decisions concerning Claflin. They were Hampton D. Smith, the group's chairman and acting chairman of the Division of Science and Mathematics; P. Palmer Worthy, acting chairman of the Division of Social Studies; J. Milton Shuler, registrar and acting chairman of the Division of Humanities; Robert Smart, bursar; and Leonard L. Haynes, dean of instruction.

While the interim committee carried out the duties of managing the institution, the members of the Board of Trustees formed their own committee to review and assess Claflin as an educational institution. Titled "A Study of the Future of Claflin College," this report listed three major aims of the institution: to elect a new president, erect a new dormitory and chart an academic course with the objective that Claflin become a "unique institution of quality, in both students and faculty." The reorganization of Claflin signified a sense of energy and purpose and a unified approach, which were also characteristics of the interim committee.

Building a Modern Campus

Implementation of the plan for Claflin eventually resulted in significant alterations to the institution and the campus. In 1956, Dr. Hubert V. Manning was chosen as the sixth president of Claflin. A graduate of and former instructor at Claflin, Dr. Manning was poised to lead the institution into a new era of academic and physical expansion. A strong advocate of combining religion and academics, Dr. Manning, at 38, was young enough to possess the energy and enthusiasm necessary to lead Claflin. After only a few months in office, Dr. Manning announced the initiation of the "New Program," which aimed to improve all aspects of campus life. He also announced that construction would begin on the much-needed dormitory to replace the one that had been lost to fire.

Dr. Herbert V. Manning

The tone that characterized Dr. Manning's approach and determination to improve Claflin academically was subsequently reflected in the initiation of numerous programs and projects during his administration. Though the core of his mission remained scholastic and philosophical growth, substantial growth to the physical plant also resulted from his endeavors.

In 1961, Dr. Manning was instrumental in establishing re-accreditation for the University with the Southern Association of Colleges and Institutions. Pressing the association to re-examine the second-class status imposed on black colleges, Dr. Manning and other black college presidents worked diligently to ensure that historically black institutions would be allowed full membership.

Students Join Civil Rights Movement

In 1960, Claflin students became a distinct component of the Civil Rights Movement. On February 25, students at Claflin were involved in a sit-in to desegregate the lunch counter at Kress, a store in downtown Orangeburg. A picket line was planned for two days later, but the city enacted an ordinance prohibiting the demonstration. In reaction, students from Claflin and South Carolina State Agricultural and Mechanical College entered the Kress store. As elsewhere in the South, they were met with resistance, armed police, water hoses, tear gas, beatings and arrests. Claflin students remained dignified, determined and convinced that they were justified and would succeed.

The civil rights struggle precipitated positive action by the U.S. government. The passage of the 1964 Civil Rights Act and the Educational Improvement Act of 1963 helped expand and improve higher education, especially at black colleges and universities. As a result of these initiatives, Claflin was awarded \$48,300 from the National Education Improvement Act to upgrade the knowledge and skills of secondary school science teachers. As the struggle continued, Claflin began to participate in programs offered by the government under the 1965 Higher Education Act, particularly Title III, which provided aid to developing institutions.

By 1966, Claflin's enrollment exceeded 700. The institution needed to add and replace facilities, including the library. With the substantial funding received from the federal government, the construction of the H.V. Manning Library began in Dr. Manning's 10th year at Claflin.

Full Membership at Last

President Manning considered obtaining full membership in the Southern Association of Colleges and Schools his greatest accomplishment. The faculty had been upgraded, with all holding graduate degrees and 13 percent holding doctorates.

Clafin continued to receive grants from the National Science Foundation and Upward Bound, and a campaign to secure 40,000 books for the library was under way. To expand the physical plant, Dr. Manning also planned for the completion of three additional buildings by the centennial. With the direction of its capable leader, Clafin was reaching new heights, growing academically, physically and culturally.

A Cultural Resurgence

Clafin's cultural pride surged through music, dance, drama and art. Prominent speakers and entertainers were frequent guests on campus. A historic honor was bestowed upon the University when the Clafin University Collegiate Choir was invited to perform at the 1964 World's Fair in New York. Clafin's eighth president, Dr. Henry N. Tisdale, was a choir member at this performance.

As the Manning administration entered its second decade, it continued to face the challenge of securing funding to modernize and expand the physical plant. However, many of the problems that had plagued Clafin from its inception were being overcome. A sense of wellbeing prevailed when, in 1969, Clafin University observed its 100th birthday. The centennial homecoming celebration took place in November, with festivities and entertainment planned by the board, faculty, staff and students.

During the first 20 years of the Manning administration, new buildings were constructed at a rate of one every two years. The library was completed in 1967 and named for Dr. Manning. The Fine Arts Center, named in honor of Whittaker V. Middleton, was completed in 1968. The High Rise Dormitory for male students was constructed in 1970, and the James S. Thomas Science Center was built in 1973. Dunwalton, the residence of the president, was constructed in 1971, and in 1980, Clafin opened the doors to the Jonas T. Kennedy Health and Physical Education Center, named in honor of one of Clafin's most generous benefactors during the Manning era and subsequent years. While Clafin's campus was being transformed through the periodic erection of imposing new buildings, its curriculum, faculty and students were improving. All were affected by events of the civil rights era, and Clafin, during the 1960s, was caught up in social and political circumstances that influenced and sometimes caused changes.

Dr. Martin Luther King, Jr.'s Visit

In February 1965, the leader of the Civil Rights Movement, Dr. Martin Luther King, Jr., visited Clafin. Dr. King and

Clafin were aware that groups representing white interests in Orangeburg continued to hold sway in some areas. Dr. King's message promoted the peaceful pursuit of human rights and the maintenance of human dignity.

Clafin students became a distinct component of the Civil Rights Movement

Three years later, on February 8, 1968, while protesting against the continued segregation of the local bowling alley, three South Carolina State College students were killed, and 27 people – six of them from Clafin – were wounded when law enforcement officers opened fire on students on the campus of South Carolina State College.

Controversy still surrounds this tragedy, and an accurate account of events will probably never be given. However, aside from the deaths and injuries, one fact remains – this was the first time in the history of this country that law enforcement officers fired on and killed students on a college campus.

Two months later, Dr. King was assassinated, producing a time of bereavement and confusion. Dr. Manning and other members of his administration guided students with their newfound sentiments throughout this period. Clafin students, like students everywhere else, pondered the stream of violence that ran through the country, and began to find their own answers and express their own thoughts by acknowledging their African-American heritage and adopting an attitude of Black pride.

Throughout the 1970s, Claflin was affected by the economic and social changes brought about first by the Civil Rights Movement and then by the federal government's programs aimed at solving some of the social, financial and economic problems that black institutions of higher education faced.

Claflin's Unique Role

Dr. Manning and his administration worked diligently to enable the institution's curriculum and policies to meet the challenges inherent in the times. They were actively and constantly reassessing the role of Claflin as a small private college. Dr. Manning firmly articulated his belief that Claflin continued to meet the special needs of African-American students, and that individual attention and encouragement would remain a part of Claflin's cultural and historical role in higher education.

Encouraged to do their best by a president who remained accessible and innovative, students at Claflin actively participated in educational programs and student activities. Beliefs, feelings and sentiments found expression in art and music, always strong features on the Claflin campus. Each succeeding year of Dr. Manning's administration saw him add to his skills as an administrator and leader. In 1971, Boston University named him *Alumnus of the Year*, and in 1976 his prominence in higher education was again recognized when he became president of the South Carolina Association of Colleges and Universities as well as president of the Council of Presidents of United Methodist Black Colleges.

President Manning's achievements as an educator significantly enhanced Claflin's reputation. His involvement in the academic activities of the institution, beginning with the accreditation of Claflin and the launching of programs and projects to improve and expand the institution's faculty and curriculum, remained constant until the end of his administration. By then, he had given Claflin 28 years of devoted service.

Two Major Events

During the last five years of Dr. Manning's administration, two major events occurred that were historical for the institution. In 1979, Claflin was officially changed from a university to a college, and in 1983, Tingley Hall was recognized by the National Register of Historic Landmarks. This sought-after recognition entitled Claflin to federal funds to aid in the restoration of one of the campus's most beautiful and impressive buildings.

Dr. Manning retired at the end of the 1984 academic year. He had worked diligently throughout his term to place Claflin in a more positive financial and economic situation, and to strengthen the institution by improving its academic reputation and securing funds to upgrade a deteriorating physical plant. May 4, 1984, was declared "Dr. H.V. Manning Day" by Orangeburg Mayor E.O. Pendarvis. This was the town's tribute to the president for "building up

an admirable educational institution" and for "furthering educational opportunities for area youth."

A Man for the Season

Claflin's seventh president, Dr. Oscar Allen Rogers, Jr., came from Jackson State University. Serving as the dean of the graduate school, Dr. Rogers was asked to become Claflin College's president because of his outstanding academic credentials, his achievements in higher education – which spanned 30 years – and his religious qualifications and experience.

Earning the A.B. degree from Tougaloo College, Dr. Rogers then went on to become a student at Harvard Divinity School in 1953, where he received an S.T.B. degree in church history and practical theory. He then pursued graduate studies in social science education, earning an M.A.T. degree from Harvard Graduate School of Education. Dr. Rogers earned an Ed.D. from the University of Arkansas in 1960.

Dr. Oscar Allen Rogers, Jr.

When Dr. Rogers took office in July 1984, he proclaimed his vision and described the first part of his plan. He had two main priorities – he would institute better faculty salaries and create a stronger financial base. He told the Claflin family and the Orangeburg community that fundraising would be his primary function, and that he would be "cultivating the market place" to attract funds and students.

During Founders' Day of his first year in office, Dr. Rogers was inaugurated as Claflin's seventh president and presented his four-year plan for Claflin. Highlights included a fundraising campaign the following spring to reduce the institution's accumulated deficit and capital indebtedness, the renovation of buildings on which maintenance had been deferred, optimal enrollment of 800 students and training for staff in various areas.

Art Collection Established

While fundraising, faculty salaries and enrollment were his primary concerns, Dr. Rogers did not overlook Claflin's cultural legacy. In November of his first year, he established an art collection for the college with the assistance of two prominent artists and Claflin graduates. Arthur Rose, formerly professor of art and head of Claflin's Art Department, and Dr. Leo Twiggs, head of the Art Department at South Carolina State University, were to head the project to acquire works of art from other alumni artists. In December, after the original collection was compiled, an alumni exhibition featured the donated works.

Dr. Rogers involved the entire Claffin family in his first fundraising efforts – a phone-a-thon with the objective of raising \$60,000. Alumni and supporters across the country were telephoned and asked to pledge to help the institution reach its goals. Although the phone-a-thon exceeded its goals by \$7,000, Dr. Rogers had even more ambitious plans.

Dr. Rogers turned his attention to fundraising efforts that would secure a U.S. Department of Education Title III challenge grant. Soliciting the help of alumni, faculty, staff and the Orangeburg community, the institution was able to raise the \$150,000 necessary to match the grant.

Renovations and expansion of Claffin’s physical plant were carried out under Dr. Rogers’ administration. As had been planned, Wilson Hall was demolished, the construction of a temporary women’s dorm was under way, and the Seabrook Gymnasium was converted into the student center. Renovations also took place on the High-Rise Dormitory and on the Lee Building, where major interior work restored the beauty while retaining the structure’s architectural integrity.

At the beginning of 1986, Dr. Rogers, who had closely monitored the institution’s implementation of his plan, was able to assess the institution’s financial standing and report on its progress. He reported that Claffin’s endowment, enhanced by \$350,000 from the challenge grant, now stood at \$1,356,000 – the largest in the history of the institution.

Throughout the Rogers administration, Claffin’s alumni increased their membership as well as their contributions to the alumni organization. They became significant supporters of the institution in many respects, and between 1986 and the end of the Rogers era, alumni contributed almost \$2 million to Claffin. Through the rest of the 1980s, Claffin reported one success story after another in fundraising, student growth, and additional projects and programs on campus as the result of grants and awards from government, private corporations and foundations. A major initiative during that time was the capital campaign, which was officially launched in April 1986. The \$3.5 million campaign was titled “Fulfilling a Special Need,” and funds were used for campus beautification, with a substantial share earmarked for the endowment.

In 1987, a major policy change within the South Carolina Conference increased Claffin’s share of funding through the Conference from 19 to 22 percent. In addition, the Board of Higher Education and Campus Ministry, which governs higher education funding for institutions related to

The United Methodist Church, recommended that funding levels be increased annually by 5 percent, beginning in 1989.

Grace T. Kennedy Business and Communications Building

A significant addition to the campus under the Rogers administration was the \$1.7 million Grace Thomas Kennedy Building. Named for the mother of Jonas T. Kennedy, an alumnus and a dedicated Claffin supporter, the building houses the Department of Business Administration and the Department of English and Foreign Languages. This attractive state-of-the-art facility became symbolic of the spirit of cooperation that existed under the Rogers administration.

New Organizations

Several new organizations were formed during Dr. Rogers’ term. The president announced the formation of the Distinguished Board of Visitors, comprised of 48 professionals whose purpose was to provide ongoing assistance to Claffin. The Board of Visitors met twice annually to offer advice to the college in addition to expertise from a variety of professional areas.

Claffin launched a \$3.5 million capital campaign in 1986. Funds were used for campus beautification and the endowment.

At the end of 1989, Dr. Rogers was once again able to announce a success for Claffin, as this year marked the end of a three-year capital campaign raising an astonishing

\$3,688,000. These funds, matched with a Title III grant, were earmarked for campus renovations to include all four residence halls, property acquisitions and the endowment fund. The institution also conducted a second campaign, which raised a total of \$6.1 million.

The Claffin 2000 Study

With a broader and more secure financial base, the development of the physical facilities for the future became the focus of a 1990 study titled “Claffin 2000.” This study provided a vision for physical development that, over 10 years, could become a reality. More importantly, it signified the confidence that Claffin had in its longevity as an institution of higher education. In 1992, President Rogers announced his plans to retire, effective June 30, 1994. Claffin’s seventh president was credited with rescuing the college from financial hardship while still managing to upgrade facilities.

As the end of his tenure drew near, President Rogers could say – with every justification – that Claffin was on a sound financial basis. He had worked exceptionally hard, and his list of accomplishments reflects his success. The Board’s search for the institution’s next leader was for someone

who would help Claflin demonstrate its capabilities, enhance its confidence, encourage its students to strive for even greater academic achievements, encourage even more students to enroll in its programs and lead it into the 21st century.

A Vision for the 21st Century

After a yearlong search, the Board announced that Henry N. Tisdale, a 1965 graduate of Claflin, had been chosen as the college's eighth president. A popular candidate with the faculty, students and staff, Dr. Tisdale was also the front-runner with the trustees. In its announcement, the Board stated, "He has an excellent academic record and a proven track record of dedication in the area of higher education, and that's what we're looking for." President Tisdale officially took office on June 1, 1994. With the advantage of knowing Claflin quite well, he understood the backgrounds and environments of many of his students, having been born and reared in Kingstree, South Carolina.

Dr. Tisdale graduated from Claflin magna cum laude in 1965 with a Bachelor of Science degree in mathematics. He began his graduate work at Temple University, where he received a Master of Education degree in mathematics. Concurrently, Dr. Tisdale taught mathematics from 1965 to 1969 in the Philadelphia school system before accepting a position to teach mathematics at Delaware State University. He obtained a Master of Arts degree in mathematics in 1975 from Dartmouth College in Hanover, New Hampshire, where he also served as a graduate teaching assistant. In 1978, Dr. Tisdale became the first African-American to graduate from Dartmouth College with a Ph.D. in mathematics.

Returning to Delaware State University, Dr. Tisdale rose through the ranks, serving as professor of mathematics; assistant academic dean for administration, planning and information management; and vice president for academic affairs. The Claflin Board's comments on his academic credentials were well-justified. Combining his mathematical expertise, administrative knowledge and aptitude for teaching, Dr. Tisdale had established and implemented numerous programs at Delaware State University and had demonstrated his expertise in strategic planning, institutional advancement and facilities enhancement.

In 1985, Dr. Tisdale was selected as an American Council on Education Fellow in the Center for Leadership Development in Washington, D.C. He served a one-year

internship under University of Delaware President Dr. E.A. Trabant.

The newly elected Claflin president announced that he had "many plans for the college." He predicted Claflin College "will enter the 21st century with an eye to becoming a premier liberal arts institution," and that the Christian tradition and individual attention to students that the institution was known for would remain a part of Claflin. President Tisdale found it important to "create a sound fiscal system at the college, a dynamic strategic planning process, a link between the budget and planning process, an enrollment plan, and an academic plan for excellence."

Dr. Henry N. Tisdale

Four months after his arrival, Dr. Tisdale announced the establishment of the Center for Excellence in Science and Mathematics. With funding from the National Science Foundation and the Department of Energy, totaling nearly \$2 million, the president identified three areas of concentration: strengthening academic programs in science, engineering and mathematics; renovating the James S. Thomas Science Center; and upgrading the Summer Science Camp for middle-school students.

The Centers for Excellence

In addition to strengthening Claflin's academic programs, Dr. Tisdale's Center for Excellence in Science and Mathematics has as its primary goal a significant increase in the number of minorities

receiving bachelor's degrees in science, engineering and mathematics, thus incorporating a strategy to reverse the decline in the number of minorities who enter graduate and professional schools in these disciplines.

In 1994, the honors program was restructured by the president and Mrs. Alice Carson Tisdale and renamed the Claflin Honors College. With higher entry standards, the Honors College, which is now known as the Alice Carson Tisdale Honors College, has as its goal to "respond to the national need for undergraduate colleges to prepare students to (1) enter and be successful in graduate and professional schools, and (2) assume leadership roles in their profession and society at large through a program that includes rigorous and coherent learning experiences, intense academic advising, cultural enrichment activities, community service experience, and other activities designed to develop the academic and leadership potential of Honors College students." Under the direction of Mrs. Tisdale, measures were taken to enhance the honors students' experience on every level.

President Tisdale's priorities for Claflin not only included the institution's academic achievement and financial growth, but also its presentation of and appreciation for arts and cultural programs. Dr. Tisdale led the college toward a new cultural awareness and at the same time rekindled pride in the talents and artistic traditions that held prominence during Claflin's history.

125th Homecoming

In 1995, President Tisdale presided over the homecoming celebrations, which culminated a yearlong series of events and activities in commemoration of Claflin's 125th anniversary. Homecoming weekend had among its highlights the inaugural Presidential Scholarship Gala, which raised more than \$65,000 for Presidential Scholarships.

Committed to the vision of making Claflin a premier liberal arts college, Dr. Tisdale implemented several programs. The College's state-of-the-art television production studio, which allows students in mass communications hands-on experiences in production, became involved in producing local shows through a collaboration with Time Warner Cable as well as the college's system.

The award-winning Freshman College was established in 1996 to ease the transition into college life, and the Professional and Continuing Studies Center, which offers two degree completion programs, became a reality in 1997 after years of planning. Also, in 1997, the college's Academic Plan for Excellence – APEX – was implemented as a means to review all aspects of the academic program, and the Claflin College Leadership Development Center was established in order to spread leadership instruction throughout the curriculum and offer a minor in leadership studies.

Enhanced Facilities

An ambitious effort began in 1995 to improve and enhance the facilities throughout the campus. In 1996, a survey was completed that became a road map for the improvements that are so obvious on the campus today.

In addition to the restoration of several of the campus buildings, Asbury, Dunton and Corson residence halls for women were air-conditioned, and the HVAC system in High Rise residence hall was replaced. In 1995, the University developed its first fully functional bookstore, and in 1996, the Orange and Maroon Club became a first-class faculty and staff dining room.

One of the crown jewels of the facilities effort was the completion in 1998 of the three-building Living and Learning Center. Named for Peter and Eleanor Kleist,

the chief benefactors, this complex includes a four-story residence hall configured in suites with computer laboratories and study rooms, a leadership development center and a campus center. The center not only changed the face of Claflin, but also had a profoundly positive effect on the Orangeburg skyline.

With assistance provided by a grant from the National Park Service, historic Ministers' Hall underwent major restoration and now serves as a performing arts facility. In 1999, the interior of the building was named the Ernest A. Finney, Jr., Auditorium, in honor of former South Carolina Supreme Court Chief Justice Ernest A. Finney.

To complement the beauty of the Living and Learning Center, give better access to the campus and create a more appealing campus appearance, a new entrance was also completed. This had a tremendous impact on the city and won the statewide Outstanding Downtown Revitalization Award. In 2000, three new well-lighted and landscaped parking lots were developed. Also, a new and inviting Goff Street entrance was added.

President Tisdale and Claflin took another proud step along its "Journey to Excellence" with the official kickoff of the most ambitious capital campaign in Claflin's history. In October 1997, the College announced the five-year, \$20 million campaign. The Peter and Eleanor A. Kleist Foundation made a \$1 million gift to Claflin in support of the campaign, specifically the Living and Learning Center. Claflin also received a \$1 million challenge grant from the Bush Foundation, a \$1 million challenge grant from the Lilly Endowment, a \$1 million gift from an anonymous donor, and gifts of \$50,000 and \$250,000 from Dr. and Mrs. James (Dorothy) Elmore.

With astounding support, the \$20 million goal was surpassed in three years and reached more than \$30 million in 2002. The campaign's theme, "Every Rung Goes Higher, Higher," captured the core of the president's vision of making Claflin one of the premier liberal arts colleges in the Southeast.

In 1999, President Tisdale and the Claflin College Board of Trustees again made history by adopting a resolution to restore the institution to its original historic name, Claflin University. According to Dr. Tisdale, the action was simply part of a strategic effort to ensure continuity and preservation of the institution's unique legacy. Also in 1999, the Arthur E. Rose Museum was established in honor of this distinguished graduate and professor.

At the beginning of his tenure, President Tisdale proclaimed that Claflin University would "enter the 21st century with an eye to becoming a premier liberal arts institution."

In 2003, the University held the ribbon cutting for the Russell Street Campus, opened the Visitors Center, restored Tingley Memorial Hall and the Lee Library (home of the Arthur Rose Museum), and renovated the H.V. Manning Library. In 2004, with growing enrollment, the University constructed the \$15 million Student Residential Center comprised of four residential facilities and the new University Dining Center for students and faculty. The new \$2 million Music Center was constructed to house the nationally accredited music program in 2004. In 2005, Claflin broke ground for the new \$3 million chapel. The University earned the prestigious S.C. Preservation Honors Award for the restoration of Ministers' Hall, Tingley Memorial Hall and the Lee Library. In 2005, Claflin University launched its second graduate program – a Master of Science in Biotechnology. The operating budget stood at \$45 million, up from \$11 million in 1994.

In 2006, the University did a complete makeover of the Mary E. Dunton Residential Hall for women and began the construction of a new chapel to replace the T. Willard Lewis Chapel, which had been demolished in 1968 to make room for the W. Vernon Middleton Fine Arts Center. In early 2007, the newly built chapel was consecrated and named the James and Dorothy Z. Elmore Chapel in honor of the husband and wife whose \$250,000 challenge grant inspired more than 2,000 supporters to contribute to the \$3 million building. A permanent marker was erected at the site of the old chapel.

Ministers' Hall

In 2010, Claflin opened its Molecular Science Research Center, which features state-of-the-art equipment. The Center is home to the only Bruker BioSpin 700 Megahertz Ultrashield Plus in the state's higher education system. The Ultrashield Plus can completely breakdown the structural outline of any compound. In addition to the equipment, the 14,000 square foot Center has smart classrooms, multiple laboratories, faculty offices, study rooms and an atrium. A forensics lab is also housed there, in collaboration with the Orangeburg Department of Public Safety.

In fall 2013, Claflin held a ribboncutting ceremony for its new Student Health Center. The University renovated one of its existing buildings, Millwood A, into the Student Health Center after the center had to be relocated to make way for the new student housing complex, Claflin Commons, near Claflin's Goff Avenue entrance.

Claflin Commons, a state-of-the-art 64,000 square foot upperclassmen residence hall that features a men's and women's wing with two- and four-bedroom suites and many amenities, was completed in fall 2014.

Well-Deserved Rankings and Recognition

Dr. Tisdale's contributions to Claflin's rising reputation were confirmed when it was announced that he was the recipient of the 2007 Milliken Medal of Quality in recognition of his demonstrated leadership, innovation, outstanding achievement and vision. This was another first for Claflin's eighth president. No other leader of a higher education institution in South Carolina had ever won this prestigious award. Dr. Tisdale was also recognized by the Council for Advancement and Support of Education with the 2008 CASE District III Chief Executive Leadership Award.

Claflin University's School of Natural Sciences and Mathematics, in partnership with the University of South

Carolina, opened the Molecular Virology Laboratory on Claflin's campus. The School also graduated its first class in Master of Science in Biotechnology and awarded its first Bachelor of Science degree in computer engineering. The School of Education graduated its first class in Master of Education in educational studies. The Center for Professional and Continuing Studies launched a degree

program at Brookland Baptist Church in West Columbia, South Carolina, and at Fort Jackson.

In advancing its mission of community outreach, Claflin University, in partnership with the Orangeburg Department of Public Safety, established a forensic laboratory at DPS headquarters on Middleton Street.

By 2008, the student enrollment of 1994 had almost doubled, and the average freshman graduated with a GPA of 3.0 or higher. Students who enrolled came from 26 states and 15 countries, and the pool of applicants was more than 3,000. It was also noted that the campus had doubled in size, undergoing some \$50 million in renovations and classroom and office improvements, including the addition of major new buildings. And that the student-faculty ratio was 12-to-1 with 74 percent of faculty holding terminal degrees in their fields. That same

year, senior philosophy and religion major Aundreta Connor was named a Fulbright Scholar, thus bringing another first to Claflin. Her achievement was shortly followed by another first, when Claflin was ranked the top HBCU in the country by Forbes.com and listed in the top 4 percent of all colleges and universities in the country.

In November 2009, Claflin hosted its first Nobel Laureate Dr. Luc Montagnier. In April 2010, the University hosted Nobel Laureate Dr. Martin Chalfie. During that time, the University celebrated its 140th anniversary with theme “140 Years of Access and Success” by hosting a series of events for alumni and the community. The state-of-the-art Molecular Science Research Center was opened in April 2010 to further the institution’s vision of being a leader in STEM research areas. The University gained national recognition through three segments from Fox News Channel, which aired in 2011, chronicling the work of Dr. Tisdale, the legacy of iconic photographer Cecil Williams (’60) and highlighting the institution’s stellar academic offerings. On June 30, 2011, Claflin publicly announced the launch of its historic \$96.4 million capital campaign, reporting that \$57 million toward that goal had already been obtained.

The 2011-2012 academic year continued its successful momentum when assistant professor of biology Dr. Nicholas Panasik received the Faculty Career Development Program grant from the National Science Foundation, an award that placed him among the nation’s top junior faculty. Then, *U.S. News and World Report* ranked Claflin in the top tier of national liberal arts institutions, elevating the University from its previous categorization as a regional liberal arts institution. Most importantly, the Southern Association of Colleges and Schools reaffirmed Claflin’s accreditation without any recommendations for improvement in January 2012.

Others continued to recognize the visionary leadership of Dr. Tisdale. He was appointed by Gov. Nikki Haley to the executive committee of her transition team and was inducted as a member of the National Black College Alumni Hall of Fame.

Historic Travel, Status and Sports

The Claflin University Concert Choir also made history in 2008. Forty members of the choir and a sizeable support team traveled to China to take part in a choral tribute

to the 2008 Olympics in Beijing. The men’s basketball added to Claflin’s global reputation when they participated in the inaugural Trinidad and Tobago Hoops Classic. While there, the Panthers with staff from Enrollment Management and First Lady Alice Tisdale actively recruited prospective students.

In September 2008, history was made again when it was announced that Claflin had been granted NCAA Division II status. The University had successfully completed a process that had spanned four years. The men’s basketball team completed a 25-3 inaugural NCAA season, capturing the SIAC regular season crown and Coach Ron Woodard was named SIAC Coach of the Year. Ranked #10 nationally among NCAA Division II teams, the Panthers also competed in their first NCAA tournament and made it to the semifinal round.

The 2008 Matriculation Day Convocation for the fall semester was the occasion for unveiling the University’s new tagline, “The World Needs Visionaries.” The

Claflin University Concert Choir

brand platform and positioning statement supporting the tagline was also presented to students, faculty and staff at the convocation. “Claflin University develops men and women of vision who demonstrate extraordinary achievement, distinctive confidence and a lifelong desire to transform society through selfless leadership and service,” the statement says. The following brand promises

were unveiled, as well: Claflin requires excellence in academics, teaching, research and creative expression; Claflin empowers its students with confidence, character and pride; Claflin cultivates connections in a supportive learning environment characterized by close-knit relationships and individual attention; Claflin instills a lifelong responsibility to make positive and lasting contributions through visionary leadership and selfless service; and Claflin prepares students to compete and succeed in a global and technological society.

In 2009, Claflin celebrated Dr. Tisdale’s 15th anniversary as the institution’s leader. It was also an occasion for the University’s president to announce his vision for Claflin’s role in the 21st century: “My vision is that Claflin will be recognized as one of the premier teaching and research universities in the world that effectively prepares visionary leaders with a global perspective. We want a diverse population of outstanding students who are committed to

giving back and thinking about the positive changes that they can make in the world. We envision a world-class faculty that can inspire students and contribute to scholarship in their disciplines, make a difference with the students that they send into the world and with the vital research that they and our students carry out.”

The University established the Athletics Hall of Fame in 2009 for past Claflin student athletes who were exemplary in their respective sport.

On the volleyball court, the Lady Panthers were SIAC Eastern Division Champions for back-to-back seasons in 2010 and 2011. Junior Kathrin Fischer also led the NCAA in serving ace percentage in 2011. LaQuan Priest and Tanekka Brown continued the theme of 2011 being a banner year for Claflin athletics by becoming the institution’s first NCAA Division II All Americans in track and field. And the Claflin cheerleading squad took home the SIAC crown for best team in competition that year as well. In 2012, the baseball team won its first ever SIAC Eastern Division Championship by sweeping rival Benedict College in the closing games of the regular season.

During the 2013-14 academic year, the Claflin University volleyball team finished first in the East Division of the SIAC and runner-ups in the SIAC post-season tournament. The Lady Panthers garnered four post-season awards, including head coach Vernell Keitt-Capers being named the SIAC Coach of the Year. Men’s track and field hurdler Dennis Bain ran a 7.80 in the 60-meter hurdles, which was the fastest time among NCAA Division II competitors. He was also named the 2014 NCAA Division II Indoor Track and Field South Region Male Track Athlete of the Year. The Claflin University 2014 softball team had a historic season under head coach Matisse Lee. The Lady Panthers captured the East Division of the SIAC with a 42-8 overall record – 12 more wins than last season and the most in NCAA Lady Panther history. For the team’s efforts, Claflin was awarded the three top post-season honors and the Co-coach of the Year in the SIAC. Markea Sheppard (Utility Player of the Year), Chelsea Hall (Freshman of the Year) and Helen Keevy (Relief Pitcher of the Year) garnered top honors, as well as All Conference First Team honors. Lee was named the Coach of the Year and the 2013-14 Claflin University Coach of the Year. For the second straight season, the Claflin University cheerleading squad won the SIAC Cheerleading Champion for the All-Girls Division.

Striding with Confidence into the 21st Century

Claflin University celebrated the 140th anniversary of its founding in 2009, under the theme, “Celebrating 140 Years of Access and Success.” A series of landmark events, many of them a first for the University, took place throughout the year and into 2010.

In November 2009, Claflin University received its first visit from a Nobel Laureate, Dr. Luc Montagnier, who won the 2008 Nobel Prize for Physiology and Medicine for co-discovering the HIV/AIDS virus. Dr. Montagnier’s visit provided students with the unprecedented opportunity to discuss their research with a Nobel Laureate. Dr. Martin Chalfie of Columbia University, the 2008 Nobel Prize winner for Chemistry, visited the campus a mere five months later to present a lecture and interact with faculty, staff and students. Dr. Chalfie said he was inspired by the enthusiasm of the students at the University. A third Nobel Laureate, Dr. Wolfgang Ketterle, the 2001 Nobel Prize winner in Physics, visited the campus and gave a lecture in September 2013.

2013 Hall of Fame Inductees

Claflin has not only garnered the attention of the world’s top scientists, but the University continues to receive acknowledgements from the nation’s top publications. In 2010, Forbes.com ranked Claflin University as the #1 HBCU for the second consecutive year. The highly respected online financial journal also cited the institution as one of “America’s Best Buys in College Education.” There were additional new rankings from U.S. News and World Report. As well as being ranked for the 13th year, this time in 12th place among Top Tier Baccalaureate Colleges in the South, Claflin was ranked #2 in the South as a “Top Up-and-Coming School.” The publication also ranked Claflin #1 in the South for its “Strong Commitment to Teaching.” Diverse Issues in Higher Education cited Claflin University as one of the most successful institutions to weather international economic downturn. Hispanic Network Magazine, in its hardcopy edition and on its website, included Claflin in the top 50 colleges and universities for Hispanic students.

Claflin University earned a top ranking among institutions in South Carolina and historically black colleges and universities from The Washington Monthly in its 2013 Best Liberal Arts Colleges rankings. U.S. News and World Report has consistently ranked Claflin as one of “America’s Best Colleges” for the past 15 years. In the 2013 edition, Claflin was again ranked a top national liberal arts college. Claflin was also ranked #7 nationally

among HBCUs. Claflin was ranked #1 in alumni giving among HBCUs by U.S. News and World Report. Claflin students have earned national recognition for community service. In 2013, the University was named to the President's Higher Education Community Service Honor Roll for the seventh consecutive year. For the sixth year, Forbes.com ranked Claflin University one of the top colleges in the United States. Claflin was one of 13 ranked institutions in South Carolina.

In fall 2013, Claflin unveiled an additional University logo. The colorful C, designed by Creative Communications and Associates, serves as a brand refresher that is used mostly in the University's recruitment and marketing efforts.

In another historic first for the University, Hemingway, South Carolina, junior politics and justice studies major Emmanuel Pressley became Claflin's first-ever Harry S. Truman Scholar in April – and the only one from South Carolina for 2014. The Truman is a highly competitive, merit-based award offered to U.S. college students who want to go to graduate school in preparation for a career in public service.

On April 8, 2014, President and Mrs. Tisdale were recognized with a resolution from the South Carolina General Assembly for their visionary and transformative leadership in higher education for the last 20 years. The Tisdales were named The Times and Democrat newspaper's 2013 People of the Year.

In 2014, Claflin University launched GoToClaflin.com, a new, cutting-edge interactive view book that gives visitors the opportunity to explore the student experience at the University in a unique, innovative way. Claflin also launched Claflin Online, offering students an opportunity to receive the unique Claflin academic experience from anywhere, at any time. General education courses began in the summer, and three degree programs – Bachelor of Arts in criminal justice, Bachelor of Science in organizational management and Master of Business Administration – began in the fall.

Claflin University just capped another successful academic year with the conferring of 422 undergraduate and graduate degrees, a record for the University. But it was also a year filled with a number of accomplishments toward the University's rising reputation as a leading 21st Century institution of higher education.

As mentioned earlier, this was a superb year at Claflin due in part to our world class faculty, who mentored, nurtured and challenged our students to reach their full potential. And, of course, the staff of the University was equally nurturing and aided our students in acquiring additional funds to ensure our students graduate with as little debt as possible.

At Claflin, service and service learning is a core value as we prepare students for real world readiness after graduation. We are committed to maintaining our relationship with the various nonprofit agencies in our community.

In 2015, The Bill and Melinda Gates Foundation awarded Claflin a \$1.2 million grant over 4.5 years to enhance student learning, accelerate student credentials, maintain access and close the equity gap. This collaboration focuses on the overarching goal of seeing underrepresented and underprepared students graduate at higher rates with high-quality credentials at affordable prices. Claflin received a previous grant of \$75,000 from The Foundation through the "HBCUs Pursuing Transformative Change Initiative," which challenges institutions to develop transformative changes that will ensure student access and success at institutions in the 21st century.

In April 2016, Claflin's laser-focus on developing strategies to prepare graduates for high-paying positions in the 21st century workforce resulted in the University receiving a \$100,000 planning grant from UNCF's (United Negro College Fund) Career Pathways Initiative (CPI), funded by Lilly Endowment Inc. The planning grant enables Claflin to submit a proposal for a much larger award. A winning proposal would build upon the University's history of offering strong academic programs in STEM (science, technology, engineering and mathematics) and non-STEM disciplines, ongoing initiatives targeting credentials, and strategic partnerships with industries that secure high-paying jobs for graduates.

Claflin University's 146th Commencement Convocation held in May 2016 was a celebration for the 422 graduates who earned degrees. A record five students graduated with 4.0 grade point averages and six earned degrees through Claflin Online, the University's online degree program. All classes are 100 percent online and Claflin currently is the only historically black college or university in South Carolina to offer online degree programs.

Claflin University's growing reputation as a leading 21st century institution of higher education reached another historic milestone when in June 2016, the University received approval from the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to launch its Registered Nurse (RN) to Bachelor of Science in Nursing (BSN) program during the 2016 Fall semester. Claflin becomes the only HBCU (Historically Black College/University) in the state of South Carolina to offer a bachelor's degree in nursing. The announcement also represents the dynamic progression of Claflin's increasing emphasis in STEM

(Science, Technology, Engineering, and Math) and online programs, while maintaining its distinction as a top-tier liberal arts university.

Clafin continues to be recognized as a top-ranked liberal arts college by Washington Monthly magazine. In the 2015 edition of the publication's annual College Guide Ranking, Clafin was ranked the number one liberal arts college in South Carolina and the top HBCU in the nation. Clafin was one of only six South Carolina colleges on the list of 248 ranked schools.

U.S. News and World Report has consistently ranked Clafin University as one of "America's Best Colleges" for the past 16 years. Clafin was again ranked a top national liberal arts college. The University was also ranked ninth nationally among historically black colleges and universities. Additionally, Clafin was HBCU Digest's HBCU of the Year in 2015 and ranked first in alumni giving among HBCUs by U.S. News and World Report. Also, Forbes.com listed Clafin as one of America's top colleges and one of 12 ranked institutions in South Carolina.

Clafin University's leadership in alumni giving was recognized in a U.S. News and World Report Short List article. Clafin was ranked No.1 with a 48.9 percent alumni giving rate during the two-year period of 2012-13 and 2013-14. Clafin's alumni giving percentage climbed back to 50 percent in 2015-16.

Clafin Athletics enjoyed a history making year in 2015-16, which included track standout Brandon Valentine-Parris becoming the University's first-ever Olympian. Valentine-Parris was named to the St. Vincent and the Grenadine's Olympic team and qualified to compete in the 400 meters. Clafin's track success in women's competition was highlighted by Trisana Fairweather who placed first at the NCAA Outdoor Championships. Fairweather, a two-time SIAC Women's Track Athlete of the Year (2015, 2016), earned All-American honors in addition to capturing the University's first-ever NCAA individual track title.

2016 Clafin Baseball Team was honored by the S.C. House of Representatives after winning first ever SIAC title

The Clafin baseball team continued the trend of "firsts." The Panthers won four straight games in the SIAC Tournament en route to capturing the school's first-ever SIAC championship title and a berth in the

NCAA Division II Baseball Regionals. Jeturi Brown, Dillon Parker and Lyndale Morley were all named to the All-Tournament Team. Morley earned Most Outstanding Player honors while head coach James Randall was named the Outstanding Coach.

A New Era

Dr. Dwaun J. Warmack, the ninth president of Clafin University, came to Clafin after serving as president of Harris-Stowe State University (HSSU) and at the time of his appointment was one of the youngest serving presidents of a four-year institution in the nation. With more than 20 years of progressive administrative experience in higher education at five distinct higher education institutions, Dr. Warmack provided leadership to more than 450 full and part-time faculty and staff and oversaw a budget in excess of \$32 million at HSSU.

*Dr. Dwaun J. Warmack,
Ninth President of Clafin University*

After his arrival in 2014, Harris-Stowe witnessed a transformation, unheralded in its 160-year history. Dr. Warmack shepherded more than \$15 million in external funding to the institution, including a \$5 million grant, the largest in the institution's history. He cultivated more than 16 partnerships and collaborations with Fortune 500 companies, regional organizations and other higher education institutions to strengthen Harris-Stowe's infrastructure. During Dr. Warmack's tenure, Harris-Stowe witnessed its highest gains in student enrollment in decades, posting the highest percentage enrollment increases among Missouri's public institutions for two

consecutive years. Additionally, as part of the institutional strategic plan that he spearheaded, the institution embarked on an ambitious goal of expanding its academic offerings. As a result, degrees, minors, and certificate programs have increased by more than 40 percent. These includes expanding liberal arts and business degrees and Science, Technology, Engineering and Mathematics disciplines (STEM). As a result of his executive leadership to transform the curricular and co-curricular enterprises at Harris-Stowe, the institution is ranked regionally and nationally in various publications and online journals with U.S. News and World Report ranking Harris-Stowe as one of the best HBCU's and Midwest Universities in the United States. Dr. Warmack's success at Harris-Stowe has captured national acclaim cumulating with a front-page article in the Chronicle for Higher Education, features in the New York Times, the Detroit Free Press and appearances on CNN, Al Jazeera America, C-SPAN and NPR.

He is considered a scholar-practitioner and possesses a wealth of experience in program design, faculty, student development, assessment and accreditation. Dr. Warmack's trajectory in higher education has been extraordinary. Prior to his appointment as president of Harris-Stowe, he served as the senior vice president, administration and student services at Bethune-Cookman University overseeing a staff of 170. His successes include oversight of a multi-million dollar renovation of the institution's residence halls. Prior to his tenure at Bethune-Cookman, he was the associate dean of students at Rhodes College in Memphis, where he had oversight of student affairs including judicial affairs, student activities, Greek life, new student and parent orientation and multicultural affairs. Warmack has also held positions at Western Carolina University in Cullowhee, N.C., and Delta State University.

Dr. Warmack provides a brand of leadership that is characterized by an unqualified insistence on data driven decision-making and a commitment to higher education's current best practices. A visionary with a unique understanding and appreciation for today's millennial students, he is committed to academic integration and the holistic development of students. Warmack is committed to developing programs that promote diversity, pluralism and cultural competency. Throughout his career, he has championed inclusion, academic excellence and the retention of underrepresented students. Over the years he has presented more than 120 diversity and leadership presentations and workshops to an array of individuals and groups.

To bolster his executive fortes, Dr. Warmack has participated in a variety of professional development opportunities including the American Association of State Colleges and Universities' (AASCU), Millennium Leadership Initiative (MLI), and Hampton University's "On The Road to the Presidency: Executive Leadership Summit."

Dr. Warmack was named the Delta State University "Black Alumnus of the Year" and was inducted into the institution's Hall of Fame. Other awards and recognitions for his work in higher education and the community include but not limited to, Delux Magazine Power 100 "Trailblazer Award" Recipient, St. Louis Business Journal "40 under 40", St. Louis American "Salute to Excellence Young Leader Award", The Rickey Smiley Foundation "Trailblazer Award", Who's Who in Color Most Intriguing People and "Ten Most Dominant HBCU Leaders of 2018." Dr. Warmack's past board memberships include Cortex Innovation Community, the Saint Louis Science Center, the St. Louis Regional Chamber, St. Louis Muny, the Greater St. Louis Area Council Boy Scouts of America, the United Way of Greater St. Louis, Southern Association for College Student Affairs (SACSA) Foundation, and the Alumni Board of Directors for Delta State University. He is a peer reviewer with the Higher Learning Commission, the largest regional accreditation body in the United States.

Dr. Warmack earned a bachelor's degree in education and master's degree in sociology from Delta State University. He earned his doctorate in educational leadership with a specialization in higher education from Union University in Jackson, Tennessee, and his post-doctoral studies in educational leadership at Harvard University School of Education.

Dr. Warmack is married to LaKisha Warmack and they have one daughter, Morgan.

CLAFLIN GUIDING PRINCIPLES

At the center of everything we do is a system of values informing and guiding all policies and programs. These values, expressed through our decisions and actions, are defined by five overarching guiding principles:

- **COMMITMENT TO EXCELLENCE**
- **COMMITMENT TO VALUING PEOPLE**
- **COMMITMENT TO BEING CUSTOMER - FOCUSED**
- **COMMITMENT TO EXEMPLARY EDUCATIONAL PROGRAMS**
- **COMMITMENT TO FISCAL ACCOUNTABILITY**

CLAFLIN UNIVERSITY'S VISION

Clafin University will be recognized as one of the premier 21st century undergraduate and teaching and research universities in the world that prepares effective and visionary leaders with global perspectives.

Campus Buildings

Administration

Tingley Memorial Hall – Constructed in 1908, this building was erected by Mr. Samuel Herbert Tingley in memory of his beloved wife, Mrs. Adella Malvina Tingley. This building is listed in the National Register of Historic Places.

Academic Buildings

Bowen Hall – Constructed in 1900, this building formerly housed the college library. It presently houses the School of Education, the Department of Teacher Education and the General Education Computer Laboratory.

Calhoun-Downs-Laymen Hall – Constructed in 1949 as a science facility, this building currently houses the University bookstore, the offices of Counseling and Placement and Cooperative Education, the Department of Art, and the Vice President for Student Development and Services.

Grace T. Kennedy Business and Communications Building – Constructed in 1992, this building houses classrooms and offices for the School of Business, the Department of English and Foreign Languages, and the Department of Mass Communications, and includes the mass communications studio.

James S. Thomas Science Center – Constructed in 1973, this building is named in honor of Bishop J.S. Thomas. The Science Center houses classrooms and offices for the biology, chemistry, mathematics and computer science departments.

Jonas T. Kennedy Health and Physical Education Complex – In 2019, the University opened a refurbished and expanded Jonas T. Kennedy Health and Physical Education Center. Renamed the Jonas T. Kennedy Health

and Wellness Complex, the 33,000 square-foot expansion provides holistic health, nutrition, and lifelong wellness education to the Claflin University campus community and area residents. The ultra-modern facility includes an auxiliary gym, fitness center, demonstration kitchen, walking track, office space, classrooms, and outdoor space to serve as a market place for local farmers.

Lee Library – Constructed in 1898, this building is one of the oldest remaining structures on the campus. It has served as a college library and is currently the site of the Arthur Rose Art Museum.

The Henry N. Tisdale Molecular Science Research Center – Constructed in 2010, this 14,000 square foot building houses state-of-the-art laboratory equipment and classrooms for the University's science programs.

The Music Center – Constructed in 2004, the building houses Claflin's nationally accredited music program.

W. Vernon Middleton Fine Arts Center – Constructed in 1968, this building contains an auditorium with a seating capacity of more than 750 people, classrooms, seminar rooms, dressing and practice rooms, and several well equipped offices.

Residence Halls

Claflin Commons – Constructed in 2014 near Claflin's Goff Avenue entrance, Claflin Commons is a state-of-the-art 64,000 square foot upperclassmen residence hall that features a men's and women's wing with two- and four bedroom suites and many amenities.

C.L. Asbury Hall – Constructed in 1961, this three-story structure accommodates 140 women.

Fred P. Corson Hall – Constructed in 1964, this building houses a two-floor residence area for 62 women.

High Rise Residence Hall – Constructed in 1970, this residence hall for 216 men rises six floors and contains modern living facilities

Kleist Hall

Kleist Hall – This serves as the central residential tower for honors women. Rooms are in suites, and floors contain study rooms and computer labs. Kleist Hall honors the gift of Peter D. and Eleanore A. Kleist.

Living and Learning Center Complex – Constructed in 1998, the Living and Learning Center Complex, an architecturally harmonious unit, includes one of the oldest buildings on campus (Ministers’ Hall) and one of the newest (Kleist Hall).

Mary E. Dunton Hall – Constructed in 1957, this residence hall for 116 women is named in honor of Mrs. Mary E. Dunton, wife of former Claflin President Lewis Marion Dunton.

Student Residential Center – Constructed in 2004, this facility consists of four state-of-the-art residence halls: North Hall, South Hall, East Hall and West Hall. The Student Residential Center accommodates 300 students. The quad apartment-styled suites consist of four single-occupancy bedrooms, two full bathrooms, a common living space and a dining area. Each suite is technologically equipped with Internet, telephone and cable television connections. Also included are a series of computer study rooms for students and comfortable accommodations for residence hall managers.

Other Buildings

Dunwalton – Constructed in 1971, this building is named in honor of the late Dr. Lewis M. Dunton. This building was retained for the residence of the president.

Hubert V. Manning Library – Constructed in 1967, this building was named in honor of the sixth president of Claflin. The library maintains and circulates current holdings of approximately 140,000 books, bound periodicals, microfilm, and audio and video recordings. The library subscribes to more than 330 periodical publications and 24 newspapers, and manages extensive multimedia resources.

Ministers’ Hall / Finney Auditorium and Library – Constructed in 1913, this brick structure was used as the college dining hall until the fall of 1964. It currently serves as a performing arts building and in the future will house the library holdings of former South Carolina Supreme Court Chief Justice Ernest A. Finney.

The 1869 Club – Constructed in 2004 adjacent to the University Dining Center, this space replaced the Orange and Maroon Club as a dining facility for faculty and staff. It provides a comfortable dining experience for employees,

alumni and visitors, and offers an elegant environment for special University and community events.

The Campus Center – This houses the counseling center, post office, student government offices, lounge, game room and snack bar. It is the campus home of non-residential students.

The James and Dorothy Z. Elmore Chapel – Constructed in 2005, this \$3 million building replaced the T. Willard Lewis Chapel, which was razed in 1968.

The Leadership Development Center – This houses the Center for Leadership Development and the Honors Center.

Trustee Hall – Constructed in 1895, Trustee Hall is the oldest campus structure. This building currently houses the School of Humanities and Social Sciences.

University Dining Center – Constructed in 2004, the University Dining Center became the central connecting point of the Student Residential Center, providing the campus with a two tiered dining hall that seats 450 students at one time.

James and Dorothy Z. Elmore Chapel

Claflin Commons

Notable Alumni

Many outstanding individuals have attended Claffin University. Here is a selection of alumni who have achieved notable success and recognition.

William Bulkley (1882) – One of the first African-Americans in America to receive the degree of Doctor of Philosophy (PhD. from Syracuse University in 1893). He was one of two members of the first graduating college class.

Nathaniel Middleton (1882) – One of two members of the first graduating college class, he became a prominent physician in Texas.

Alice Jackson Moorer (1884) and **Annie Thortne Holmes** (1884) – Two of the first five black women in the world to receive college degrees.

Robert Bates – First African-American certified as an architect. He designed Fisk Hall, T. Willard Lewis Chapel and other campus buildings.

William Wilson Cook – Designed Lee Library (1898) and Tingley Memorial Hall. He went to Washington, D.C., to become the first black architect in the U.S. Treasury Department's Office of the Supervising Architect, planned and administered federal buildings.

Florella Fordham (1900) – First “trained” nurse in Orangeburg.

Nathaniel Frederick – First African-American admitted to the Richland County Bar. He practiced law in Columbia for 25 years.

Cassandra Maxwell Birney (High School, 1928) – First black female attorney admitted to the South Carolina Bar.

Thaddeus K. Bythewood, Sr. (1930) – Prominent Orangeburg businessman who served on the Board of Trustees for 47 years.

James S. Thomas (1939) – First African-American bishop of the Iowa Conference of the United Methodist Church.

Rev. Dr. Hubert V. Manning (1940) – First alumni president of Claffin University.

Clemmie B. Hatchett (1943, honorary Doctor of Humane Letters) – Philanthropist.

Earl M. Middleton (1948, honorary Doctor of Humane Letters) – Philanthropist and owner of Coldwell Banker Middleton and Associates.

Ernest Newman (1948) – First African-American bishop of the Tennessee Conference of the United Methodist Church.

Arthur E. Rose (1950) – Internationally recognized artist and the first African-American educated as an art instructor in South Carolina.

Ernest A. Finney, Jr. (1952) – First African-American to serve as chief justice of the South Carolina Supreme Court.

Ernest A. Finney Jr.

Joseph B. Bethea (1953) – First African-American to serve as bishop of the South Carolina Annual Conference.

Dr. Gloria Blackwell (1953) - An African-American civil rights activist and educator who was at the center of the Civil Rights Movement in Orangeburg during the 1960s. She was arrested for sitting in the “whites only” area of the regional hospital when her daughter needed emergency treatment. She sued the hospital and won, ending its segregation.

James Martin, Ph.D (1954) – First African-American to earn a PhD (biology) from the University of South Carolina.

Leo F. Twiggs (1956) – Internationally recognized artist and first African-American to receive a doctorate from the University of Georgia.

Cecil Williams (1960) – Internationally recognized photographer, author and publisher known for his extensive collection of Civil Rights photographs.

Cecil Williams

Dorothy Z. Elmore (1961) – Philanthropist.

James K. Davis (1962) – Senior Vice President for Corporate Affairs, Georgia Power Company.

James Hodges (1966) – First African-American to earn a pharmaceutical degree from the Medical University of South Carolina.

MacArthur Goodwin (1963, honorary Doctor of Humane Letters) – Past president of the National Art Education Association.

Henry N. Tisdale (1965) – Eighth president of Claffin University. First African-American to earn a PhD. in mathematics at Dartmouth College.

Nancy Wilson-Young (1965) – Professor, Miami-Dade Community College.

Rev. Charles Luther Johnson (1966, honorary Doctor of Divinity) – Greenville District Superintendent, The United Methodist Church.

Janice Marshall (1970) – Executive director of the James E. Clyburn Research and Scholarship Foundation.

Liz Zimmerman-Keitt (1970) – Founder of Project Life Positeen Mentoring Program, First African American Orangeburg City Council Member since Reconstruction; past president, Claflin University International Alumni Association.

Verlie A. Tisdale (1971) – Research scientist and Dean, Natural Sciences and Mathematics, Claflin University.

Attorney William H. Johnson Sr. (1972) – Philanthropist and distinguished legal counsel (retired) for Norfolk Southern Corporation.

Franklyn Scott (1974) – Oral surgeon and past president of the National Dental Association.

Moses Harvin (1975) – President and CEO of American Services Technology in Rockledge, Florida.

Vela McClam-Mitchell (1975) – President/CEO and Owner, Travel and Marketing Conglomerate Industry.

Cynthia V. Anderson (1980) – Chief Operations Officer for the U.S. Department of Energy's Office of Environmental Management.

Lt. Col. Tony Memminger (1980) – Manages the Senior ROTC programs assigned to colleges and universities throughout the states of South Carolina and Tennessee, as well as at Appalachian State University in Boone, North Carolina, and Augusta State University in Augusta, Georgia.

Floyd Gordon (1981) – Acrylic artist and entrepreneur.

Col. Gloria A. Lee (1982) – Chief Transportation Branch, United States Army.

Brigadier General Twanda E. Young (1989) - First female commissioned from the Army ROTC program at Claflin to achieve the rank of Brigadier General.

Clarence T. Brown (1994) – Project Manager, NASA Curriculum Improvement Partnership Award Program, UNCF Special Programs.

Adam McFadden (1994) – Member of City Council, Rochester, New York, and social activist.

Kebra Moore (1997) – Gospel recording artist with MOKEB Entertainment.

Letisha Edwards (1998) – Dental surgeon at Coast Dental near Atlanta.

Lola Kelly Smalls (2000) – Research scientist, *Kebra Moore* Proctor & Gamble Company

Tish Archie (2000) – Vice President of Professional Recruitment, Citigroup Incorporated.

Uhriel E. Bedoya (2003) – Assistant Vice President, International Trade Finance Group, M&T Bank.

Pamela Antley (2003) – Intelligence Analyst, Equal Employment Opportunity Program Manager, Federal Bureau of Investigation.

Heyward Jean (2004) – Principal at Mellichamp Elementary School in Orangeburg and member of the first Call Me MISTER class at Claflin

Heyward Jean

Rebecca Karuiki (2006) – Financial Analyst, UBS Investment Bank.

Ernest Bevell Mensah (2006) – Investment Analyst, Goldman Sachs & Co.

Daniel Howard (2008) – New York Award Emmy Award Winner for Excellence in Teen Programming.

Steven Dial (2011) – Reporter for NBC news affiliate First Coast News WTLV/WJXX in Jacksonville, Fla.

Claflin University International Alumni Association

Through the years, the Claflin University International Alumni Association has played a vital role in the history and growth of Claflin University. Because no specific history was recorded, it is assumed that the association had its beginnings in the early 1900s. Graduates of the university constitute a noble group of men and women who have gone forth imbued with the true spirit of the institution, ministering to the needs of humanity. The purpose of the organization includes:

- Developing and maintaining the spirit of the University.
- Bringing about a closer fellowship among the graduates, former students, administrators and friends of Claflin.
- Promoting scholarship, education and culture.
- Maintaining in alumni a sense of responsibility for the continued life and growth of Claflin University and its traditions
- Promoting the organization of Claflin alumni chapters.

- **President:** Mr. Robert Miller, '66
- **First Vice President:** Dr. Darralyn Hooker, '02
- **Recording Secretary:** Mrs. Estella T. Rickenbacker, '73
- **Corresponding Secretary:** Ms. Keshia G. Barnes, '95
- **Treasurer:** Ms. Octavia A. Smalls, '00
- **Financial Secretary:** Mr. Gerald Mackey, '74
- **Chaplain:** Dr. Charles L. Johnson, '66
- **Parliamentarian:** Dr. Liz Zimmerman Keitt, '70
- **Alumni Representatives to the Board of Trustees:** Dr. Willie L. Frazier, '75; Mrs. Joan Steward Stevens, '70; and Brigadier General (Ret.) Twanda E. Young, '89

CLAFLIN'S TRADITIONS AND PRACTICES

- The Freshman Parting Ceremony
- The Freshman Candlelight and Confirmation Ceremony
- Matriculation Day
- Homecoming
- Founders' Day
- Religious Emphasis Week
- Claffin Pride Day
- CALA-Bash
- Honors and Awards Convocation
- Baccalaureate
- Commencement

The Claffin University Alma Mater is sung at all ceremonial events on campus. The words of the Alma mater were written by Etta Butler Rowe, and the melody was composed by Annie Lisle. The song was later harmonized by Fredericka Young.

Assembly programs are designed to foster a sense of community that is open, nurturing, caring, celebrative and supportive of excellence in teaching and learning, and to enhance the intellectual, cultural, social and spiritual experiences of members of the Claffin family. Required of all students for the four semesters, assembly programs focus on issues pertaining to leadership, development, quality of life and Christian responsibility.

Historical Notes

- 1994** Clafin revives The Panther newspaper.
- 1994** The Honors College is established.
- 1996** A Clafin professor and research chemist is honored as the Governor's Professor of the Year among all senior colleges and universities in South Carolina.
- 1996** The Clafin Community Development Corporation is established as a 501(c)3 non-profit organization to revitalize nearby neighborhoods.
- 1996** The Center for Leadership Development is established.
- 1996/1997** The award-winning Freshman College is established to ease the transition of students into college life.
- 1997** Clafin expands and renovates the James S. Thomas Science Building.
- 1997** The Professional and Continuing Studies Program is established.
- 1997** The United Methodist Foundation for Christian Higher Education names a Clafin professor the Outstanding Educator of the Year. This was the first professor from a historically black college or university to win the award, as well as the first African-American woman to receive the prestigious honor.
- 1997** Division of Business earns national accreditation from the Association of Collegiate Business Schools and Programs.
- 1998** The University establishes the Office of Information Technology to focus on technology and its importance to the academic programs and administrative operations.
- 1998** Clafin reinstates baseball after a 40-year absence.
- 1998** Clafin University constructs and dedicates the \$7 million Living and Learning Center.
- 1999** The Board of Trustees approves restoration of the institution's original and historic name, Clafin University.
- 1999** The Unit Accreditation Board of the National Council for Accreditation of Teacher Education accredits the Teacher Education Program at Clafin, making the University the second private institution of higher education and the first private Historically Black College or University in South Carolina to achieve national accreditation.
- 1999** The John Templeton Foundation names Clafin University to its Honor Roll for Character-Building Colleges, and cites Clafin's Freshman College Program as one that instills character and moral values.
- 1999** Clafin establishes the Center for Excellence in Teaching.
- 1999** Ministers' Hall is renovated and restored. Ministers' Hall receives the South Carolina Historic Preservation Award.
- 1999** Corson Dining and Women's Residential Hall is renovated.
- 1999** Newly constructed front gate entrance wins the South Carolina Non-Commercial/New Construction award for architectural design.
- 1999** Dr. James and Mrs. Dorothy Z. Elmore make a \$250,000 challenge gift to construct a new chapel.
- 2000** Clafin University hosts the South Carolina Annual Methodist Conference for the first time since the 1972 merger of the white Methodist Conference with the African-American Methodist Conference.
- 2000** Nelson Brownlee, head coach for the Pantherettes, captures the title of Winningest Coach in the NAIA with 612 career wins.
- 2000** A sprawling rear entrance, constructed on Goff Avenue, complements the design of the award-winning front entrance.
- 2000** Clafin gains membership in The Leadership Alliance, an academic consortium of Ivy League, national research institutions, and several historically black colleges and universities. The Leadership Alliance's mission is to help improve minority students' participation in graduate and professional schools.

Legacy Plaza

- 2001** Asbury Women’s Residential Hall is renovated.
- 2001** The Abney Foundation Fund becomes the first Clafin University Endowed Scholarship to reach the \$1 million mark. The number of endowed scholarships increases to more than 100 in 2001 (from 10 in 1994).
- 2001** The University establishes the South Carolina Biotechnology Center, the first of its kind at an HBCU.
- 2002** Dr. Omar Bagasra, eminent molecular biologist, immunologist and Clafin professor of biology is named Faculty Scholar by American Association of Cancer Research.
- 2002** A Clafin professor is appointed associate editor of the Sixteenth Century Journal, the leading international journal for early modern studies.
- 2002** Human Race Relations Institute is established.
- 2002** The Center for End-of-Life Studies Program established.
- 2002** Clafin reinstates tennis.
- 2002** Dr. Shingara Sandhu, Clafin professor and research chemist, wins the National Millennium Award for Excellence in Teaching.
- 2002** Newly completed Legacy Plaza, a pedestrian-friendly walkway that connects the campus from east to west and north to south, is dedicated.
- 2002** Historic capital campaign exceeds its goal, reaching more than \$30 million.
- 2002** The Alice Carson Tisdale Honors College captures the only two national leadership appointments at the National Association of African-American Honors Programs Conference in 2002 and 2003.
- 2003** Clafin renovates and restores historic Tingley Memorial Hall and the Arthur Rose Museum. These buildings are listed on the National Register of Historic Places
- 2003** Clafin renovates the H.V. Manning Library.
- 2003** A sophomore track star captures the first-ever national championship in any sport for Clafin University, winning the NAIA National Track and Field Outdoor Championship Clafin.opens the new Visitors Center.
- 2003** Center for Vocational Reflection opens, funded by a \$2 million grant from the Lilly Endowment.
- 2003** Office of Government Relations and Research established
- 2003** The University wins the \$20,000 Pace Setter Award for achieving the highest percentage of alumni giving among South Carolina Independent Colleges and Universities.
- 2003** Baccalaureate, a spiritual service held the day prior to a Commencement Convocation to celebrate the academic achievements of scholars, returns to Clafin University after being absent from the schedule of commencement activities for 30 years.
- 2004** The annual Presidential Scholarship Gala reaches over \$1 million in proceeds raised for academically talented students.
- 2004** Federal grants increase from \$4 million in 1994 to more than \$14 million.
- 2004** Clafin establishes the Department of Public Safety.
- 2004** Clafin renovates High Rise Residential Hall.
- 2004** The \$15 million Student Residential Center, comprising four residential facilities and the Student and Faculty Dining Center, is constructed to accommodate growing enrollment.
- 2004** Clafin University constructs the new \$2 million Music Building.
- 2004** Dr. Angela Peters, Clafin University research chemist and professor, wins the Millennium Award for Excellence in Teaching at HBCUs.
- 2004** The NCAA Division II approves the Clafin University intercollegiate athletic programs for full membership.
- 2005** Clafin University emerges as a leading undergraduate research-oriented institution.
- 2005** The university launches its second graduate program – the Master of Science in biotechnology.
- 2005** Clafin’s MBA Program earns national accreditation from the Association of Collegiate Business Schools and Programs.
- 2005** The Unit Accreditation Board of the National Council for Accreditation of Teacher Education continues the accreditation for the University’s professional education unit through 2011.
- 2005** Clafin’s English Program receives recognition by the National Council of Teachers of English.

Clafin University Dining Hall

- 2005** The University's Mathematics Program receives recognition from the National Council for Teachers of Mathematics.
- 2005** The South Carolina Department of Education continues its approval of Claflin's Art Education Program.
- 2005** Claflin University strengthens its position among research institutions. For fiscal year July 1, 2005, through June 30, 2006.
- 2006** The School of Natural Sciences and Mathematics brought in more than \$3,314,000 to improve its research infrastructure.
- 2005** Claflin's Chemistry Program earns national accreditation from the American Chemical Society. The program becomes one of only two nationally accredited programs at private institutions in South Carolina.
- 2005** Claflin breaks ground for the new \$3 million chapel.
- 2005** The University's Elementary Education Program earns national program approval from the Association of Childhood Education International.
- 2005** Claflin's Early Childhood Education Program earns national program approval from the National Association for the Education of Young Children.
- 2005** A Claflin University mass communications major wins the prestigious Sundance Film Festival Award in the Short Documentary category.
- 2005** A Claflin professor becomes the first African-American woman to win the prestigious South Carolina Governor's Professor of the Year Award at a post-secondary institution.
- 2006** Claflin establishes its third graduate program, the Master of Governor's Professors Award for Scientific Awareness.
- 2006** Claflin does a complete makeover of the Mary E. Dunton Residential Hall for women.
- 2006** The University constructs the new chapel.

- 2011** President Henry N. Tisdale is inducted into the National Black College Alumni Hall of Fame for his visionary leadership and contributions to higher education.
- 2012** Claflin University receives reaffirmation of accreditation from the Southern Association of Colleges and Schools without any further recommendations.
- 2012** Former S.C. Supreme Court Chief Justice Ernest A. Finney ('52) is inducted into the S.C. Hall of Fame. The Renaissance Cultural Arts Center Museum in Columbia was renamed the Ernest A. Finney, Jr. Civil Rights Museum in his honor.
- 2012** Assistant Professor of Biology Dr. Leslie Wooten-Blanks receives the American Association for Cancer Research Minority Serving Institution Faculty Scholar Award for her chemotherapy research.
- 2012** The Claflin University student body reaches its fund-raising goal of \$100,000 for the capital campaign, becoming the first constituent group to reach its goal.
- 2012** Claflin University's catcher/designated hitter Donald Smith is drafted by the Boston Red Sox, making him the school's first-ever draft selection.
- 2012** Claflin biology professor Dr. Omar Bagasra, director of the S.C. Center for Biotechnology, is granted a U.S. patent for a process that could one day lead to a preventive HIV vaccine.

Dr. Omar Bagasra is recognized as Professor of the Year

- 2013** Dr. and Mrs. Henry N. Tisdale announce a \$250,000 gift to the University. Their gift will be used to endow a professorship in the STEM – science, technology, engineering and mathematics – disciplines; support two endowed scholarships, the Alice Carson Tisdale Endowed Scholarship in Education and the Henry N. Tisdale Endowed Scholarship in Mathematics; and provide scholarship support for students in other disciplines and student athletes.
- 2013** The National Council for Accreditation of Teacher Education’s Unit Accreditation Board reaffirms Claflin University’s School of Education accreditation.
- 2013** Claflin unveils an additional University logo. The colorful C, designed by Creative Communications and Associates, serves as a brand refresher that is used mostly in the University’s recruitment and marketing efforts.
- 2013** Claflin University hosts “From Brown (1954) to Brown (1963) and Beyond: Achieving Educational Equality in South Carolina,” a special daylong symposium to commemorate the 50th anniversary of school desegregation in South Carolina, to address the role the state, counties and communities play in providing quality education for all students.
- 2013** Claflin University breaks ground on Claflin Commons, a new student housing complex. The new 64,000 square foot residence hall – which establishes a new gateway to the campus from Goff Avenue – is comprised of two three-story wings, one each for men and women, with accommodations for approximately 200 students in two- and four-bedroom suites.
- 2013** Dr. Wolfgang Ketterle, the 2001 Nobel Prize in Physics winner, visits the Claflin campus to share his discovery of the Bose-Einstein condensate and passion for physics. He said he was impressed by the energy at Claflin University, and “the passion and the quality of the faculty, and also the quality of the research facilities I’ve seen here. This is really a good school.” He is the third Nobel Laureate to visit the University.
- 2013** Claflin University hosts retired U.S. Ambassador James Irvin Gadsden as part of the University’s Visionary Leadership Institute.
- 2013** Claflin University and Orangeburg-Calhoun Technical College enter into memorandums of understanding in several academic areas so that students can earn bachelor’s degrees in early childhood education, elementary education, mid-level education, and politics and justice studies. Also offered are academic tracks for professional and continuing studies students to earn bachelor’s degrees in either sociology and criminal justice administration or organizational management.
- 2013** Sodexo, the corporation that provides integrated food and facilities management services for Claflin, becomes the largest single donor in the University’s history when it contributes \$4.35 million to the Campaign for Claflin University.

- 2013** Claflin’s Dr. Omar Bagasra, Dr. Verlie Tisdale and Dr. Kamal Chowdhury are awarded a patent for the development of a microorganism that will make it easier to transform cellulose biomass into butanol.
- 2013** Claflin holds a ribbon-cutting ceremony for its new Student Health Center in one of its existing buildings, Millwood A, after the center had to be relocated to make way for Claflin Commons.
- 2013** Claflin University alumni giving percentage increases nearly 10 percentage points in 2013, from 43 percent to a record 52.2 percent, placing Claflin’s alumni giving rate among the best in the nation.
- 2013** Orangeburg’s The Times and Democrat newspaper names Claflin President Henry N. Tisdale and Mrs. Alice Carson Tisdale its 2013 People of the Year.
- 2014** Claflin University launches GoToClaflin.com, a new, cutting-edge interactive view book that gives visitors the opportunity to explore the student experience at the University in a unique, innovative way.
- 2014** The South Carolina General Assembly honors Dr. and Mrs. Henry N. Tisdale for their contributions to Claflin University, the state and the surrounding communities, as well as their visionary and transformative leadership in higher education for the last 20 years.

Dr. and Mrs. Henry N. Tisdale during presentation by the South Carolina General Assembly

- 2014** Junior politics and justice studies major Emmanuel Pressley becomes Claflin University’s first-ever Harry S. Truman Scholar, and the only one from South Carolina for 2014.
- 2014** Claflin hosts its inaugural Entrepreneurship Business Competition as part of its third annual Business Week observance.

2014 Clafin University launches Clafin Online, offering students an opportunity to receive the unique Clafin academic experience from anywhere, at any time. General education courses began in the summer, and three degree programs – Bachelor of Arts in criminal justice, Bachelor of Science in organizational management and Master of Business Administration – began in the fall.

2014 *The U.S. News and World Report* ranks Clafin first among historically black colleges and universities on its Short List for the University’s alumni giving rate.

2014 Clafin holds inaugural Henry N. Tisdale Visionary Leadership Pre-College Academy for middle and high school students from Williamsburg County.

2014 Clafin’s Department of Music is approved for full membership by the Commission on Accreditation of the National Association of Schools of Music.

2015 Clafin University is named the AARP/ HBCU Digest HBCU of the Year. The Clafin University International Alumni Association was also named Alumni Association of the Year.

2015 The Bill and Melinda Gates Foundation awards Clafin a \$1.2 million grant over 4.5 years to enhance student learning, accelerate student credentials, maintain access and close the equity gap.

2016 Clafin Baseball team captures the 2016 Southern Intercollegiate Athletic Conference (SIAC) championship.

2016 Six members of the Class of 2016 were the first to earn online degrees through Clafin Online, the University’s online degree program that launched in 2014. Clafin is the only HBCU in South Carolina which offers 100 percent online degree programs.

2016 Clafin University launches the RN to Bachelor of Science in Nursing Program in the 2016 Fall Semester. Clafin becomes the only HBCU (Historically Black College/University) in the state of South Carolina to offer a bachelor’s degree in nursing.

2016 Track and field standout Brandon Valentine-Parris becomes the university’s first Olympian. Valentine-Parris, a rising junior at Clafin, traveled to the 2016 Olympics in Rio and represented his home country St. Vincent and the Grenadines. Valentine – Parris participated in the 400-meter dash.

A school-record five students graduates with 4.0 grade point averages during Clafin’s 146th Commencement Convocation in May 2016.

The U.S. News and World Report ranks Clafin first among historically black colleges and universities

2016 Claflin University raises more than **\$105 million** and exceeded the \$100 million goal of its *Imagine the Possibilities* Capital Campaign. The campaign was the most successful in University history. The priorities of the campaign were Building the Endowment, Strengthening Academic Programs and Enhancing Facilities.

Imagine the Possibilities Capital Campaign celebration.

2016 Claflin University is listed among the most “heavenly HBCU campuses” by Black Southern Belle, a lifestyle magazine focusing on all things fashion, style, home décor and southern.

2016 Claflin University is listed in Princeton Review’s 2016 Guide to 361 Green Colleges. The guidebook profiles colleges with the most exceptional commitments to sustainability based on their academic offerings and career preparation for students, campus policies, initiatives, and activities. The profiles include information on a school’s use of renewable energy, recycling and conservation programs to the availability of environmental studies, and career guidance for green jobs. According to Princeton Review, 2,000 schools were invited to participate, and out of the responses, 361 schools were profiled.

2016 Claflin University, Benedict and Voorhees College receives part of a \$35.4 million grant under the UNCF® Career Pathways Initiative (CPI), funded by Lilly Endowment Inc. The grant will help the

institutions design and implement programs to improve employment outcomes for graduates. UNCF has allocated a \$6 million grant to these three universities: Claflin University (\$3.3 million), Benedict College (\$1.5 million), and Voorhees College (\$1.2 million). A portion of the Claflin University grant (\$1.8 million) will operate a jointly-established State Coordinating Office to direct and monitor all of the activities of the awarded institutions.

From left to right: Dr. Michael L. Lomax, President and CEO of UNCF; Dr. David H. Swinton, President of Benedict College; Dr. W. Franklin Evans, President of Voorhees College; and Dr. Henry N. Tisdale.

2016 President Henry Tisdale delivers State of the University Address and Claflin LEADS Initiatives at 147th Matriculation Day Convocation. “Claflin LEADS: A Shared Vision for the 21st Century” was the theme of the president’s message which affirmed the University’s growing reputation in higher education. LEADS is an acronym for Leadership Development, Experiential Learning, Academic Progress, Diversity and Student Success.

2016 Claflin University and the South Carolina Technical College System (SCTCS) sign a Memorandum of Understanding (MOU) that offers a seamless pathway for associate degree graduates to matriculate at Claflin to earn Bachelors of Arts and Bachelors of Science degrees. The agreement also allows students who have earned associate degrees to enroll in Claflin as juniors with the possibility of graduating with a bachelor’s degree within 18 months.

Signing of the South Carolina Technical College System MOU.

2016 Claflin University is approved to participate in the National Council for State Authorization Reciprocity Agreements (NC-SARA) which allows Claflin to recruit and market its online programs in states outside of South Carolina. SARA is an agreement among member states, districts and territories that establishes comparable national standards for interstate offering of postsecondary distance education courses and programs. It is intended to make it easier for students to take online courses offered by postsecondary institutions based in another state. SARA is overseen by a National Council and administered by four regional education compacts. Claflin’s approval by SARA comes only two years after the launch of Claflin Online – the University’s online education program.

2017 Claflin celebrates its inaugural graduates of the Bachelor of Science Degree in Nursing and the Master of Education Degree in Curriculum and Instruction programs at the 147th Commencement Convocation. Also, 10 graduating seniors achieved cumulative 4.0 grade point averages. These students, referred to as “The Talented 10,” were members of the Alice Carson Tisdale Honors College.

The “Talented 10”

2017 Dr. Ananda Mondal, who receives the Attorney William H. and Annette B. Johnson Endowed Faculty Award for Innovative Scientific Research, and is awarded the prestigious National Science Foundation (NSF) Early Career Development Award and a \$550,000 research grant. Mondal is an assistant professor of mathematics and computer science at Claflin.

Dr. Ananda Mondal receives the Attorney William H. and Annette B. Johnson Endowed Faculty Award.

2017 Claflin announces the launch of the Master of Science in Criminal Justice Degree Program for the 2017 Fall Semester.

2017 Claflin University is ranked on a list of the Best Colleges in South Carolina by BestColleges.com, a leading provider of higher education information and resources. “The Best Colleges in South Carolina ranking aims to promote higher education institutions in the state that are committed to excellent academic education and affordable, meaningful learning opportunities for prospective students,” says Stephanie Snider, general manager at BestColleges.com. “Claflin University certainly deserves a spot on this ranking due to their rich history in east coast education as well as their offering of 36 undergraduate majors, four graduate degrees and six online degrees from fields such as business, education, humanities, social sciences, and natural sciences and mathematics.”

2017 Claflin University signs partnership agreements with Regional Medical Center (RMC) and Orangeburg-Calhoun Counties Technical College that will enable registered nurses and students who earn an associate degree in nursing to earn a bachelor’s degree online through Claflin’s RN to Bachelor of Science in Nursing program. Claflin is the only HBCU in South Carolina to offer a bachelor’s degree in nursing.

2017 Claflin University’s leadership in alumni annual giving is recognized by *U.S. News and World Report’s* Short List. Claflin is ranked Number 1 with a 47.7 percent alumni annual giving rate during the two-year period of 2013-14 and 2014-15. The report is based on the 46 Historically Black Colleges/Universities (HBCUs) that submitted data to the publication in an annual survey. Claflin reached a historic plateau in 2013 with its 52.2 percent alumni annual giving rate. For 2016, the University had a 52 percent alumni annual giving rate.

2017 Clafin University dedicates its Veterans Monument to honor veterans who served in the Army, Air Force, Coast Guard, Marines, Navy and Merchant Marines. The names of the veterans provide a historical narrative of the university's ROTC program. The monument was the vision of the late Charles H. Johnson (a former dean of student affairs) who wanted to honor veterans who attended or were employed at Clafin. Johnson was also Clafin's coordinator and director of the pilot ROTC Cross-Enrollment program.

2017 Clafin is ranked eighth among the 25 Best Colleges in South Carolina by College Choice, a leading online authority in college and university rankings and resources. Clafin University is the only historically black college or university (HBCU) listed in the ranking.

2017 Clafin University's "Throwing Shade" celebration on Monday, August 21, for the first total eclipse of the sun visible from the contiguous United States (excluding Alaska and Hawaii) since 1979, creates astonishment, excitement, and curiosity, throughout the campus community. Students and visitors donned their solar eclipse safety glasses as the much-anticipated moment of the total eclipse began at 2:43 p.m.

2017 Clafin University's music education program is ranked 10th nationally by College Magazine's "10 Cutting Edge College Music Education Programs." The list credits the Bachelor of Arts in Music Education degree program and its comprehensive coursework, clinical experience and world-renowned faculty for preparing the next generation of professional musicians and educators. Clafin is the only historically black college or university (HBCU) listed in the ranking.

2017 For the seventh consecutive year, Clafin University is placed among the top 10 in U.S. News and World Report's annual ranking of the nation's Top 20 historically black colleges and universities (HBCUs).

2017 The ground-breaking ceremony of Clafin's new Health and Wellness Complex launches the construction of a dynamic, multi-purpose facility that will provide benefits for the campus community and area residents beyond the walls of the University. The Health and Wellness Complex is a 33,000 square-foot facility that will expand and renovate the existing Jonas T. Kennedy Health and Physical Education Center. The complex will provide holistic health, nutrition, and life-long wellness education to the campus community and local residents. The ultra-modern facility will include an auxiliary gym, fitness center, demonstration kitchen, walking track, office space, classrooms, and a farmer's market with locally-sourced foods. The project received funding from a variety of sources including Clafin's capital campaign, Orangeburg County, the United Methodist Church, Sodexo, the U.S. Department of Agriculture, Blue Cross/Blue Shield, AFLAC and other donors.

2017 Clafin University's music education program is recognized in an article published by College Magazine titled "6 Inspiring HBCUs for Music Education Programs." The Bachelor of Arts degree in Music Education is designed for students who plan to teach music in levels K-12. It also prepares students to pursue graduate studies in music education and performing areas including piano, vocal, or instrumental music.

2017 A landmark study commissioned by UNCF titled “HBCUs Make America Strong: The Positive Economic Impact of Historically Black Colleges and Universities” documents the significant economic contributions of Claflin University and the nation’s network of HBCUs by quantifying their impact on the economy, employment and increased earning power of their students. The study was underwritten by Citi Foundation and the economic estimates were prepared by the University of Georgia’s Selig Center for Economic Growth. Key findings of the study outlines that (1) Claflin University helps to make Orangeburg strong by generating \$79 million in total economic impact; (2) Claflin University generates 835 jobs for their local and regional economies; and (3) Graduates of Claflin University can expect to earn \$1 billion over their lifetimes, 70 percent more than they could expect to earn without a college credential.

2018 Claflin University President Dr. Henry N. Tisdale is featured in a New York Times article about Department of Education Secretary Betsy DeVos’s effort to tighten a wide-ranging regulation that offers federal debt relief to students who were defrauded or deceived by their higher-education institutions. Dr. Tisdale’s comments were related to the detrimental effect the policy could have on historically black colleges and universities (HBCUs).

Henry N. Tisdale, the president of Claflin University in Orangeburg, S.C., says his small, non-profit school should not be lumped in with for-profit colleges under Education Department regulations. Sean Rayford for The New York Times

2018 Claflin University demonstrates its emphasis on global outreach during a visit by Dr. Munashe Furusa, vice chancellor of Africa University. Furusa and James Salley, Africa University’s vice chancellor for institutional advancement, traveled to Claflin for a meeting with President Henry N. Tisdale and other University administrators to discuss implementation of a partnership which includes a faculty/student exchange program. A memorandum of understanding was signed in March 2017 by Claflin and Africa University. The partnership aligns with the Claflin University Strategic Plan, “Claflin LEADS: A Shared Vision for the 21st Century,” which lists experiential learning and diversity and inclusion among its priorities. The relationship is also consistent with Claflin’s vision to “develop a diverse and inclusive community of globally engaged visionary leaders.” Both Claflin and Africa University are affiliated with The United Methodist Church.

2017 Claflin hosts the groundbreaking of the \$4.5 million Highway 601 Project funded by the South Carolina Department of Transportation. The construction will enhance pedestrian and vehicular safety adjacent to the campus. This project will work to retain the historic nature and ambiance of the campus from Boulevard to Magnolia Streets and from Goff Avenue all the way down to Clark Street.

2018 The Atlanta Journal-Constitution publishes a series of stories that examines Historically Black Colleges and Universities - their place in society, their future and their challenges. In this expose, Claflin University was featured in two articles titled “Claflin University: Tiny South Carolina School Shoots for the Stars” and “Alumni Giving at Claflin University Sets National Black College Standard.”

2018 Clafin University is awarded a \$500,000 grant by the Andrew W. Mellon Foundation to revitalize the School of Humanities and Social Sciences General Education Curriculum. The grant supports Clafin's goal of addressing the needs of the 21st Century workforce by re-engineering the general education curriculum. The primary focus is to prepare graduates for career opportunities through classroom and internship experiences.

2018 Clafin University's men's basketball team (The Panthers) captures the 2018 Southern Intercollegiate Athletic Conference (SIAC) Tournament Title when they defeated Clark Atlanta University in the championship game. The win gave the Panthers the conference's automatic berth in the NCAA Division II Men's Basketball Regionals.

2018 Clafin University is elected to full membership in the Central Intercollegiate Athletic Association (CIAA) after its exit from the Southern Intercollegiate Athletic Conference (SIAC). Clafin sponsors men's basketball, women's basketball, baseball, softball, volleyball, men's and women's indoor track and field, men's and women's outdoor track and field, and men's and women's cross country. Clafin raised the profile of its athletic program when it became a NCAA Division II member in 2008 and concurrently joined the SIAC.

2018 After serving Clafin University as its eighth president for more than two decades, Dr. Henry N. Tisdale on Tuesday, April 17, 2018, announces his retirement effective June 30, 2019. His tenure at his alma mater is marked by visionary leadership and remarkable accomplishments for the oldest historically black college or university in South Carolina.

2018 Distinguished author and White House correspondent April Ryan serves as the keynote speaker for Clafin University's 148th Commencement Convocation. During the ceremony, Ryan was also granted an honorary doctorate degree from Clafin University.

2018 Clafin University hosts the 11th Anniversary of the James and Dorothy Z. Elmore Chapel. The guest speaker for the anniversary worship service was Bishop L. Jonathan Holston, resident bishop of the South Carolina Annual Conference of The United Methodist Church.

2018 Clafin University celebrates its Sesquicentennial Celebration with a year-long schedule of events from November 2018-November 2019.

2018 Clafin University wins \$30,000 in the 2018 Home Depot Retool Your School Grant Competition. The program encourages and recognizes innovative projects that contribute to the beautification of HBCU campuses. Clafin University will transform an unused campus green space into an outdoor gathering and eco-friendly environment for students, faculty, staff, alumni and visitors. The pavilion will include ceiling fans, lighting, built-in stone seating, and a built-in stone barbeque pit and serving counter.

2018 Claffin signs a Memorandum of Understanding (MOU) with the University of South Carolina to establish a 3+2 program where students can spend three years at Claffin and two years at USC to earn a Bachelor of Science degree in chemistry at Claffin and a Bachelor of Science degree in chemical engineering at USC.

2018 The Writing Center at Claffin University is the only HBCU writing center to become Southeastern Writing Center Association (SWCA) certified. The SWCA serves as a forum for the writing concerns of students, faculty, staff, and writing professionals from both academic and non-academic communities in the southeastern region of the U.S. Founded in 1981, the SWCA is a member of the International Writing Centers Association: An NCTE Assembly.

2018 Claffin University holds its first Fall Commencement Convocation on December 14, 2018. The graduating class consisted of 101 students who received graduate and undergraduate degrees with nursing, criminal justice and sociology heading the list of top majors.

2019 Claffin University is recognized as the January 2019 “School of the Month” by the Tom Joyner Foundation®. The Foundation, formed by the nationally-syndicated radio personality Tom Joyner, chose Claffin as part of its on-going effort to provide scholarships for students attending historically black colleges and universities (HBCUs).

2019 Claffin University hosts the Ribbon Cutting Ceremony of the new Jonas T. Kennedy Health and Wellness Complex. The Jonas T. Kennedy Health and Wellness Complex is a 33,000 square-foot facility that provides holistic health, nutrition, and lifelong wellness education to the Claffin University campus community and area residents. The ultra-modern facility includes an auxiliary gym, fitness center, demonstration kitchen, walking track, office space, classrooms, and outdoor space for a farmers market.

2019 Janelle Green, a member of the Alice Carson Tisdale Honors College, is selected as a recipient of an English-Speaking Union Luard Morse Scholarship and receives \$25,000 toward a semester of study at any university of her choosing in the United Kingdom during the 2019-2020 academic year.

2019 Food Lion awards Miss Claffin University, Shantavia Edmonds, with its coveted 2019 Miss CIAA crown, along with a \$2,500 scholarship at the CIAA Fan Fest inside the Charlotte Convention Center in Charlotte, N.C.

2019 Approximately 700 Claffin University alumni, staff, faculty, students, corporate and community supporters attend the A Legacy of Visionary Leadership Gala affair to celebrate President Henry N. and First Lady Alice Carson Tisdale and raise funds to support student scholarships

2019 Radio Personality Charlamagne Tha God talks Mental Health with Claffin students at the annual Cala-Bash.

2019 The Panther, Claffin’s student newspaper, wins four awards in the 2018 Collegiate Division contest sponsored by the S.C. Press Association, the organization of the state’s daily, weekly and collegiate newspapers. The editor, Olanma Hazel Mang, is named the S.C. Collegiate Journalist of the Year.

2019 In his last commencement as president of Claffin University, Dr. Henry N. Tisdale delivers the 2019 commencement address. He shares with the graduates “You must have imagination. You must believe it can happen. You must be able to see and taste greatness. Please protect and cherish your dreams. The world is calling on you.”

2019 Members of the Class of 1969 return to Claffin University to participate in their Golden Class Reunion and donate more than \$72,000.

2019 Claffin University hosts its grand opening of its Fresh Farmers Market. Buyers are able to purchase various fruits and vegetables, including sweet potatoes, watermelon, cabbage, collard greens, string beans and tomatoes.

2019 The Clafin University Board of Trustees announces the appointment of Dr. Dwaun J. Warmack as the ninth president of Clafin University.

2019 Clafin University announces that its RN to Bachelor of Science in Nursing program has received accreditation by the Commission on Collegiate Nursing Education (CCNE) Board of Commissioners retroactive from October 1, 2018, until June 30, 2024.

2019 Clafin University and the South Carolina Technical College System signs a Memorandum of Understanding that enhances the seamless transfer of registered nurses who also have earned an associate degree from one of the 16 schools in the SCTC System to Clafin University's RN to Bachelor of Science in Nursing program.

2019 Dr. Henry Tisdale and wife Alice Carson Tisdale wave a final goodbye as they exit Tingley Memorial Hall for the last time as the leaders of Clafin University.

2019 Clafin University President Dr. Dwaun Warmack speaks during a pep rally held to officially mark the beginning of his tenure as the university's ninth president.

2019 Clafin University Board of Visitors completes its challenge to raise \$1 million for FOCUS100 Scholarships (\$1,004,202.21). Since 2017, approximately 1,400 donors supported the Special Gifts Campaign for FOCUS100 Scholarships, with donors contributing, on average, \$714 each.

2019 Clafin University and the South Carolina Technical College System sign a Memorandum of Understanding (MOU) to enhance the seamless transfer of Registered Nurses (RNs) who also have earned an associate degree from one of the 16 schools in the SCTC System to Clafin University's RN to Bachelor of Science in Nursing program. Students who complete the registered nursing program at a South Carolina Technical College will enter Clafin's RN to BSN program as juniors. Clafin has similar agreements with nearby Orangeburg-Calhoun Technical College to admit graduates who are RNs and The Regional Medical Center in Orangeburg, S.C.

2019 The James E. Clyburn Scholarship and Research Foundation awards 42 scholarships to high-achieving high school graduates who enrolled at Clafin for the 2019 fall semester. The presentations were made at the annual Rudolph Canzater Memorial Golf Classic in Santee, S.C. The Foundation awarded a total of 150 Canzater Scholarships and Clafin was the institution of choice for more recipients than any other college or university.

2019 Clafin's RN to BSN program receives the Best Nursing Program Award at the 2019 HBCU Awards in Baltimore, Md. The HBCU Awards Ceremony is the first and only national awards ceremony honoring individual and institutional achievement at historically black colleges and universities throughout the country. Winners are selected by a panel of previous winners, journalists, HBCU executives, students, and alumni for their merit of accomplishment and for generating positive coverage for HBCU campus communities.

2019 Clafin hits a homerun in its efforts to increase brand awareness for the University in the Midlands at "Clafin Night" with the Columbia Fireflies" minor league baseball team. The Fireflies are the South Atlantic League affiliate of the New York Mets. More than 300 students - mostly from the Class of 2023 - and dozens of alumni, faculty, and staff, were among more than 8,000 fans that enjoyed an evening of door prizes and other giveaways, refreshments, and fireworks. Clafin President Dr. Dwaun J. Warmack was one of several representatives from local agencies and organizations who threw out a ceremonial "first pitch." Clafin also sponsored the "7th Inning Stretch" at all Fireflies home games and the University's logo appeared on the stadium's video scoreboard throughout the season as the fans sang "Take Me Out To The Ball Game."

2019 Clafin University's innovative academic programs, world-class faculty, and high-achieving visionary scholars are the catalyst for *U.S. News and World Report* placing Clafin ninth in its 2020 ranking of the nation's top HBCUs. The prestigious publication has recognized Clafin as one of the nation's Top 10 HBCUs for nine consecutive years. HBCUs listed in *U.S. News and World Report* are compared only with each other for these rankings. To make the list,

a school must be currently designated by the U.S. Department of Education as an HBCU. To qualify for U.S. News rankings, an HBCU also must be an undergraduate baccalaureate-granting institution that enrolls primarily first-year, first-time students and must be a school that is part of the 2019 Best Colleges rankings.

Other rankings: *U.S. News and World Report* ranks Clafin ninth overall among the schools in the Best Regional Colleges South rankings. These are institutions that focus on undergraduate education but grant fewer than half their degrees in liberal arts disciplines. Regional Colleges rankings are split into four regions: North, South, Midwest, and West. Clafin is listed in the Top 10 in three other Best Regional Colleges South rankings.

Clafin was third as a Best College for Veterans; fourth in Most Innovative Schools; and seventh for Best Undergraduate Teaching. Best Colleges for Veterans are the top-ranked schools that participate in federal initiatives that help veterans and active duty service members pay for their degrees. Institutions in the Most Innovative Schools rankings were selected by college presidents, provosts, and admissions deans who were asked to nominate up to 15 colleges or universities that are making the most innovative improvements in terms of curriculum, faculty, students, campus life, technology or facilities.

The Best Undergraduate Teaching category comprises schools that have a strong commitment to teaching undergraduates instead of conducting graduate-level research. The institutions listed received the most votes in a survey conducted during Spring 2019, from top college administrators for putting a particular focus on undergraduate teaching.

and training infrastructure for faculty and students, broaden the participation of women and minorities in STEM disciplines, and enable the development of new interdisciplinary and cross-disciplinary courses.

2019 Clafin University receives \$788,702 as a result of the FUTURE Act. The enactment of the FUTURE (Fostering Undergraduate Talent by Unlocking Resources for Education) Act, by House Majority Whip Jim Clyburn, permanently reauthorizes mandatory funding for HBCUs and minority-serving institutions with \$255 million a year in funding.

2019 The 2019 Fall Commencement is the first for Clafin President Dr. Dwaun J. Warmack, who began his tenure as the university's ninth president on Aug. 1, 2019. Dr. B. DaNine J. Fleming, '96, was the keynote speaker. Fleming is an associate professor in academic affairs, director of training and intercultural education in the Department of Diversity, Equity and Inclusion at the Medical University of South Carolina. Pennshelia Latashawain Griffin, a member of the Alice Carson Tisdale Honors College, is the recipient of the Presidential Academic Excellence Award. Griffin, a native of Yemassee, earned a bachelor's degree in human performance and recreation. She graduated magna cum laude with a 3.88 GPA – the highest among all fall 2019 graduates.

2019 Clafin secures a grant for more than \$470,000 from the U.S. Department of Defense to purchase a Xevo G2-XS Quadruple-Time of Flight mass spectrometer which can measure the accurate mass of molecules in research to detect various diseases and in developing drug targets to cure diseases. According to Dr. Derrick Swinton, interim dean of the School of Natural Sciences and Mathematics, the mass spectrometer can detect and identify proteins that are responsible for causing types of diseases and help researchers design drugs that will target a specific disease. The instrument will also enhance the research

2019 The Claflin University Nursing Department hosts its sixth pinning ceremony in December 2019. The Class of Fall 2019 comprises 13 graduates who earned a bachelor’s degree through Claflin’s nationally-accredited RN to Bachelor of Science in Nursing program which launched in August 2016. The program offers registered nurses an opportunity to earn a bachelor’s in nursing. Since the program’s inception, more than 80 graduates have completed the 100 percent online program. Claflin is the only historically black college/university (HBCU) in South Carolina that offers a bachelor’s degree in nursing.

2020 Claflin’s men’s basketball team makes school history with an overtime win over Elizabeth City State University in the opening round (70-60) followed by an upset victory over top-seeded Virginia State (63-58) in the quarterfinals at the 2020 Central Intercollegiate Athletic Association (CIAA) Men’s Basketball Tournament in Charlotte N.C. The Panthers fell to eventual tournament champion Winston-Salem State (58-56) in the semifinals. The victories are the program’s first in the tournament since Claflin joined the CIAA in July 2018. Senior forward/guard Cornelius Reynolds and junior guard Donnell Frayer Jr. are named to the all-tournament team.

2020 In March 2020, the University transitions to virtual instruction and learning platforms due to the COVID-19 pandemic.

2020 Claflin holds its first-ever Virtual Commencement Convocation on Friday, May 15, and confers 219 bachelor’s and master’s degrees. Angel Hague, a political science major from Lansing, Michigan, receives the Presidential Academic Excellence Award for the Class of 2020. Hague graduates summa cum laude and delivers the “Senior Challenge.”

“The conferring of an undergraduate degree should be a moment in time that one should never forget - and we want to make sure that even in these times, our students are celebrated,” said President Dwaun J. Warmack in a letter to the graduating seniors. “Our students have committed and devoted countless hours to earn a degree and we want to help them celebrate this momentous occasion.”

2020 Claflin University is selected as a 2020 Best Value School by Best Value College’s panel of higher education experts. According to the organization’s website, “schools honored with the Best Value School Award belong to an elite club of high quality, affordable postsecondary institutions.” Institutions that receive the Best Value School award are not ranked. However, Claflin is listed among 100 colleges and universities that meet a criterion Best Value Schools believes “is important to postsecondary students of all ages.

2020 Aligning with its core founding mission of providing educational opportunities without discrimination, Claflin establishes the Center for Social Justice. One of the center's initial acts was the implementation of "A Day of Reflection" a virtual memorial designed to highlight the disproportionate number of African Americans killed while in the custody of or being pursued by law enforcement officers. The YouTube presentation premiered on Friday, June 19, and featured a special tribute to George Floyd, who was killed in May 2020, by a Minneapolis, Minn., police officer as well as victims of racially motivated hate crimes. The event also served as the University's recognition of Juneteenth, the national celebration to commemorate the day when slaves in Galveston, Texas learned of their freedom long after the Emancipation Proclamation was passed by Congress in 1865. The center will provide oversight for Claflin's selection as a Second Chance Pell Experimental site, which supports the focus and mission of the center. The Department of Education-funded initiative will allow the University to promote its nationally-accredited academic programs in prisons through the "Pipelines from Prisons Program." Dr. Belinda Wheeler, associate professor of English, serves as director of the center.

2020 Zoom Video Communications, Inc. (NASDAQ: ZM) and Claflin University announce a commitment to a five-year strategic partnership. The video communications provider developed a multifaceted foundational program with the University that represents \$1.2M in educational and financial investments. Program components include: paid internships, merit, and need-based scholarships; support for Claflin's general operating fund, and alumni engagement. Aparna Bawa, Zoom Chief Operating Officer, is appointed to Claflin's Board of Trustees.

2020 Claflin University becomes a regional hub for coding and creativity as part of Apple's Community Education Initiative and Tennessee State University's HBCU C2 initiative designed to bring coding and creativity experiences to historically black colleges and universities (HBCUs) and their communities. Claflin will participate in Apple's virtual Teacher Coding Academy to learn about coding and app development using Apple's comprehensive curriculum, which utilizes its easy-to-learn Swift programming language. As part of its Community Education Initiative, Apple will support Claflin with equipment and professional development to help the university become the pre-eminent regional HBCU C2 hub to bring coding and creativity to Orangeburg.

2020 Former Claflin University track and field standout Faith McKie, '20, is among 605 female student-athletes nominated for the 2020 NCAA Woman of the Year Award. A former hurdler/sprinter for the Lady Panthers, McKie was crowned Miss CIAA 2020 and Miss Claflin University 2019-2020. A 2020 summa cum laude graduate with a degree in sport management with a minor in Spanish, McKie was the 2020 CIAA Indoor Track and Field silver medalist in the pentathlon.

2020 Claflin University mourns the passing of former first lady Alice Carson Tisdale. Mrs. Tisdale made her peaceful transition on Saturday, July 25, 2020. "Mrs. Tisdale played a pivotal role and joined her husband, President Emeritus Dr. Henry N. Tisdale in shaping the 25-year success story of Claflin University," said Dr. Dwaun J. Warmack, president of Claflin University. "Not only did Mrs. Tisdale help strengthen the academic profile of the University through the Honors College, but she also displayed compassion, guidance, and kindness to hundreds of students who passed through the halls of Claflin. We are forever grateful for her visionary leadership."

2020 With the ever-changing dynamic of the COVID-19 pandemic, the University continues online instruction for the first month of the 2020 fall semester. Students are given the option of returning to campus for September 2020 or remain at home for the remainder of the semester.

2020 Clafin receives approval by the Board of Trustees of the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to establish a Master of Science in Nursing Program. All classes will be offered online except for on-site clinical practicums that will be required each semester. The program is scheduled to begin during the 2021 Fall Semester.

2020 The Mathematics and Computer Science Department receives a \$700,000 subaward (over a five-year period) from the Savannah River Site Community Reuse Organization Sponsored by the National Nuclear Security Administration, an agency of the U.S. Department of Energy. The primary goal for the five-year grant period is to prepare undergraduate students to fill diverse advanced education, research, and career opportunities.

2020 Clafin University receives more than \$2.7 million from BlueCross BlueShield of South Carolina for immediate financial needs to ensure sustainability and help students start or continue their education. The gift was part of the company’s financial commitment to five private four-year historically black colleges/universities (HBCUs) in South Carolina based on enrollment levels for specific priorities. Guidelines for funding also focused on immediate gaps such as technology support.

2020 Clafin University’s rigorous, student-focused academic programs, and a faculty that comprises world-class scholars contributes to U.S. News and World Report ranking Clafin ninth in its 2021 list of the nation’s top historically black colleges/universities (HBCUs). Clafin has earned a place among the Top 10 HBCUs in the publication’s prestigious ranking for 10 consecutive years. U.S. News and World Report also ranks Clafin University ninth overall among the schools in the Best Regional Colleges in the South rankings.

2020 Despite the disruption caused by COVID-19, the total of freshman students entering Clafin for the 2020-2021 academic year is 9.3 percentage points higher than 2019-2020. Clafin was the school of choice for 564 talented new scholars seeking a rigorous academic experience that will prepare them to become globally engaged visionary leaders.

2020 Clafin University is one of four HBCUs selected to participate in UNCF’s “Voices for the Future” event sponsored by the National Football League’s (NFL) Inspire Change initiative. “Voices of the Future” is devoted to uncovering the challenges HBCU students face in a virtual discussion about racial profiling, the criminal justice system, and systemic change for the next generation.

2020 Clafin University’s School of Humanities and Social Sciences receives a \$12,000 Bridge Emergency Relief Grant from South Carolina Humanities. Funding for Bridge Emergency Relief Grants was provided by the National Endowment for the Humanities (NEH) as a part of the Coronavirus Aid, Relief and Economic Security (CARES) Act economic stabilization plan. The School of Humanities and Social Sciences was one of 103 cultural organizations in South Carolina to receive a grant.

2020 President Dwaun J. Warmack, First Lady LaKisha Warmack and daughter, Morgan, lead an Election Day “March to the Polls.” The destination of the march was the polling station at South Carolina State University. The purpose of the march was to highlight the importance of voting and encourage other Orangeburg residents to vote.

2020 Clafin University and the University of South Carolina sign a Memorandum of Agreement to establish a five-year dual degree program that allows undergraduate students from Clafin University to earn a Bachelor of Science, Bachelor of Arts, and a Master of Mass Communications degree with a concentration in either strategic communication or multimedia journalism in the College of Information and Communications at The University of South Carolina. Clafin students can also earn a Master of Library and Information Science degree through the partnership.

2020 Clafin University launches its Inaugural “Outstanding Leaders Under 40” program to celebrate alumni under the age of 40.

2020 Clafin University’s Pathways From Prison Program was awarded a one-year \$40,000 planning grant from the Laughing Gull Foundation. The Laughing Gull Foundation “is a progressive family foundation rooted in the U.S. South.”

2020 President Dwaun J. Warmack and Langston University President Kent Smith Jr. write a joint opinion piece that was featured on The Washington Post’s website titled, “It’s time to finally give incarcerated people access to Pell grants.” In the op-ed, the presidents discuss the importance of incarcerated students receiving a fair education, Clafin’s Center for Social Justice and HBCUs’ unique role in expanding access to higher education.

2020 The family of Ms. Linda Hill, an assistant professor of English at Clafin who passed away in April 2019, makes a \$350,000 gift to the University to establish an endowment to support student scholarships. The gift is the largest from any current or former member of Clafin’s faculty or staff.

2020 Clafin University forms a partnership with Solomon Exam Prep and Lincoln Financial Advisors to increase the representation of minorities in the financial management industry.

2020 The University’s 2020 Virtual Fall Commencement Convocation celebrates summer and fall graduates. Clafin conferred bachelor’s and master’s degrees to more than 150 graduates. The RN to BSN program in the Department of Nursing had the highest total of graduates with 45.

2020 Clafin University is one of 11 historically black colleges and universities to receive funding from Dominion Energy’s six-year “HBCU Promise” grant in the amount of \$1.5 million. The program will support endowments, capital projects, operating expenses and educational programs in clean energy at HBCUs in Virginia, Ohio, North Carolina and South Carolina.

2020 Otiana Thompson is crowned the Black College Quiz national champion. The show features students from the nation’s historically black colleges/universities (HBCUs) who showcase their knowledge of African American history.

2020 Claflin University receives a game-changing \$20 million investment, the largest in school history, from philanthropist and author MacKenzie Scott. The gift will accelerate Claflin's mission to develop visionary leaders that advance social change regionally, nationally and globally.

2020 Claflin University is selected as a U.S. Department of Education Second Chance Pell Experimental Site, which continues an initiative that began under President Barack Obama to help incarcerated individuals earn university credentials.

2021 NBCUniversal News Group launches NBCU Academy at Claflin University. It is a new, innovative, multiplatform journalism training and development program for four-year university and community college students through education, on-campus training, and online programming. The initiative includes a curated onsite curriculum for hands-on learning experiences with world-class NBCU News Group journalists, funding for accredited journalism programs, and scholarships.

2021 Dr. Dwaun J. Warmack receives the 2021 Association of American Colleges & Universities-Cengage Inclusion Scholarship. The AAC&U awards the scholarship to currently serving campus presidents in recognition of their outstanding leadership to advance liberal education.

2021 The Claflin University donates nearly 11,000 food items during a "Stuff the Van" food drive to the "Filling Station," a food storage facility which was created to help reduce food insecurity among school age-children in the Orangeburg County School District.

2021 Eric Minor wins the Inaugural Madden 21 x HBCU Tournament. He was among 16 players that had advanced to the finals from a single elimination qualifier tournament. As the champion, Minor won the grand prize of \$5,000. Minor is a junior computer science major from Suffolk, Va., and a member of the Claflin University baseball team.

2021 Claflin confers more than 300 bachelor's and master's degrees during its in-person Spring 2021 Commencement Convocation. Among the highlights of the Spring 2021 Commencement Convocation was the presentation of an honorary doctorate that was awarded to businesswoman and philanthropist, Ms. Anita G. Zucker, chair and chief executive officer of The InterTech Group, Inc. (TIG), a privately held company founded by Zucker and her former husband, Jerry Zucker (OBM). One of the largest private companies in the USA, TIG and its affiliates operate in a diverse array of industries, from aerospace and specialty chemicals to real estate and entertainment.

2021 Africa University vice chancellor Professor Peter Mageto visits Claflin to discuss the academic partnership between the two institutions and plans to launch a master's degree in biotechnology.

2021 The Council for the Accreditation of Educator Preparation (CAEP) announces that Claflin University is one of 60 providers from 26 states to receive accreditation for its educator preparation programs. The Spring 2021 review by the CAEP Accreditation Council resulted in 60 newly-accredited education preparation providers, bringing the total to 423 providers approved under the CAEP Accreditation Standards – rigorous, nationally recognized standards that were developed to ensure excellence in educator.

2021 Claflin University is one of 10 institutions to receive a \$5 million grant from Google, designed to help create pathways and opportunities for increased diverse representation in the STEM industry. The one-time unrestricted financial grant will provide Claflin with financial support for scholarships, technological infrastructure support, career readiness, and curriculum development.

2021 Claflin hosts a ribbon cutting ceremony to celebrate the grand opening of its Downtown Center. The Downtown Center is located at 1425 Russell Street in Orangeburg. The renovated facility houses the Center for Social Justice and Claflin’s new Center for Global Education, which was established by a merger of The Center for Professional and Continuing Studies and Claflin Online.

2021 Claflin receives a \$1 million gift from an anonymous donor to support the strategic goals of the University’s endowment.

2021 Account balances for students enrolled from Spring 2020, Fall 2020, Spring 2021, and Summer 2021 are eliminated. The University dedicated \$1 million to clear debts for more than 700 students.

2021 Claflin University begins the Fall 2021 semester. “In light of the myriad challenges we confronted from the coronavirus pandemic, I can proudly say that Claflin University has remained strong,” wrote Claflin President Dwaun J. Warmack in a letter to the campus community. “In fact, Claflin not only strived but also thrived. It was made possible through the tireless support of the campus community. Under this backdrop, I am delighted to welcome the Claflin Family back to the start of a new academic year!”

CLAFLIN PATHWAYS FROM PRISON PROGRAM

2021 Claflin University launches its first cohort of students participating in the transformative Pathways From Prison Program. Incarcerated individuals in South Carolina prisons who are eligible to participate in the program can earn a bachelor’s degree in criminal justice, psychology, and organizational management. They may also earn minors and certificate credentials.

2021 Claflin University announces its plans to build a new Student and Community Center. The new facility will be ready for operations in early 2023.

The Claflin University Alma Mater

Words by Etta Butler Rowe, 1896-1903 | Revised by Isaiah McGee, 2014
Melody by Annie Lisle | Harmonized by Dr. Fredericka Young

When the sun of Carolina
Mounts the eastern sky
Proudly stands our Alma Mater,
On the hilltop high.

When the evening twilight deepens
And the shadows fall,
Linger long the golden sunbeams,
O'er the western wall.

When the Shades of night shall gather,
Dark the heart may be,
Still the rays of youth and love,
Shall linger long o'er thee.

Chorus

Orange, Maroon, float for aye
Claflin fair o'er thee,
*May we all be leal and loyal
To thy memory

**original text "May thy sons be leal and loyal"*

CLAFLIN UNIVERSITY

THE CLAFLIN CREED

As a community of visionary scholars at **CLAFLIN UNIVERSITY**, we dedicate ourselves to model the institution's **Guiding Principles** and to achieve academic excellence through: integrity, scholarship, community, creativity, excellence, civility, service and leadership.

INTEGRITY I will practice and defend academic and personal honesty.

SCHOLARSHIP I will cherish and honor learning as a fundamental purpose and use rigorous, responsible, and critical inquiry to understand existing knowledge, acquire and share new knowledge, and apply what has been learned.

COMMUNITY I will promote an open and supportive campus and community environment by respecting the rights and contributions of others.

CREATIVITY I will share and use my talents to enrich the human experience.

EXCELLENCE I will strive toward the highest standards of performance in any endeavor undertaken.

CIVILITY I will respect the rights of others and be mindful of the impact of my words and actions by being kind, courteous, and avoiding overt rudeness.

SERVICE I will work with others to improve the communities in which I now live and will touch in the future.

LEADERSHIP I will be responsible for my conduct, the results of my actions, placing respect above popularity, and honor above all else.

As a member of the Claflyn Community, I pledge to uphold the values that guide my conduct, performance, and decisions set forth in the **CLAFLIN UNIVERSITY CREED**.

The World Needs Visionaries

CLAFLIN UNIVERSITY

THE PANTHER SERVICE COMMITMENT

Our Service Commitment To You

"We will greet you professionally, listen effectively, and respond quickly."

GREET PROFESSIONALLY

- We will greet our customers in a courteous and professional manner.
- We will interact with each other in a courteous and professional manner.
- We will hold ourselves and each other accountable for addressing inappropriate comments and behavior.

LISTEN EFFECTIVELY

- We will listen effectively to our customers' request and promptly take the necessary actions to assist them.
- We will keep our customers informed of unexpected delays in service.
- We will work to resolve issues with co-workers and other departments by discussing problems directly and working toward agreed upon solutions.

RESPOND QUICKLY

- We will inform our customers of normal process times, when they can expect completion and any delays that may arise in the process.
- We will respond to website request questions/requests within 24 hours during normal business hours.
